

ANNEX A

TECHNICAL SPECIFICATIONS CISCO Equipment and Information and Communication Technology (ICT) Equipment and related ICT Services

1. Requirements

A. General

1. Bidders are required to deliver enterprise grade Information and Communication Technology Equipment, Software and licenses from the following eight (8) product categories:
 1. Lenovo Laptop Computers, spare parts and relevant accessories
 2. HP Laptop, Desktop Computers and Monitors, spare parts and relevant accessories
 3. HP Printers and Scanners, spare parts and relevant accessories
 4. HP Enterprise Servers, spare parts and relevant accessories
 5. Cisco Networking equipment and software, spare parts and relevant accessories
 6. Cisco Video Conferencing Equipment, spare parts and relevant accessories
 7. Apple Laptop Computers, Tablets, Desktop Computers and Monitors, Smartphones, spare parts and relevant accessories
 8. Samsung Tablets, Smartphones, Mobiles, spare parts and relevant accessories

In order to ensure that bidders have fully understood the requirement, a representative set of the most frequently procured items by UNHCR for each of the product categories mentioned above is provided as **Annex 1** to this technical specifications document.

The product(s) will be then selected and procured on-demand by UNHCR during the period of validity of the contract on the basis of the bidder's **product line** price list(s) covering for the above categories. The Selected Vendor(s) will be asked to define and commit throughout the entire duration of the contract to a single **fixed percentage discount** to be applied against the specific product line price list(s) provided.

When ordering a product from any of the categories above, UNHCR may also request the selected vendor to supply and install additional features to meet the needs of the requesting Internal Unit(s) (e.g. additional DRAM for a Desktop Computer). The cost of such supply will be calculated based on the price provided in the product list, deducted the discount percentage offered by the

vendor concerned. Whilst, the cost of the relevant installation, if any, shall be separately provided in writing by the same vendor, and shall be subject to approval by UNHCR Procurement Service.

If – during the frame agreement (FA) period – UNHCR should have a requirement for Information and Communication Technology Equipment not listed in Annex A and not covered by any of the product category price list(s) provided, the selected vendor(s) will be asked in writing to submit an offer to supply the item(s) concerned. The lowest compliant offer received will be selected for the purchase. In addition, the item will be automatically added to an UNHCR internal list of NON-FA products at the price(s) offered by the responsive vendor(s) in case of future needs. Such a list will be compiled and maintained by UNHCR Procurement Service.

B. Services

1. Supplier(s) will be required to perform the services set forth below and as more fully described below in Section B2:

- (a) Keep stock to ensure prompt deliveries especially in emergencies free of charge to UNHCR, without any commitment from UNHCR to buy stock;
- (b) Supply directly to the field locations anywhere in the world from supplier's warehouse and obtain export license from respective authorities as and when required;
- (c) Provide worldwide Warranty,
- (d) Maintenance and Support Services worldwide for all equipment;
- (e) Solution engineering services in support of the specific products being supplied,
- (f) Provide administrative support;
- (g) Provide strong and secure outer packaging.

2. Services Details

(a) Stockpiling to ensure prompt deliveries

Supplier(s) shall maintain minimum stocks stipulated below at its own cost, without procurement commitment from UNHCR. During UNHCR Emergencies, the equipment shall be shipped within 24 hours of receipt of Purchase Orders. The supplier shall replenish its stockpile to reach minimum levels again within 15 days of shipment of equipment.

The stock shall be at the following minimum level:

- Desktops and Monitors – 20 units
- Keyboards QWERTY – US English standard – 20 units
- Printers – 5 piece of each type
- Laptops – 20 units
- Cisco routers and switches – 20 units
- Cisco video conferencing end points – 10 units

(b) Direct delivery to UNHCR Field Offices

Apart from HQs in Geneva, Budapest and Copenhagen, selected supplier(s) shall be expected to also deliver goods directly to UNHCR field offices as advised on Purchase Orders. UNHCR has offices worldwide, mainly in: Europe, Africa, Middle East and Asia. Offers submitted only for a specific geographical region will not be taken into consideration.

Should there be an export license requirement for shipping ICT equipment to a certain location (either because the destination country is under embargo and/or because of the classification of an item(s)), supplier(s) are also expected to obtain the necessary export license(s) from the respective authorities.

In case the goods offered are to be delivered from the US, bidders shall note that UNHCR does not maintain an Employer Identification Number (EIN number). If the export administration regulations would require such EIN number for UNHCR deliveries, bidders are called upon to investigate and offer other transport option(s) under applicable laws and regulations.

Prior to shipping, the supplier(s) shall check that the hardware includes, in line with the relevant PO's requirements:

- Requested plug and other electrical requirements such as voltage (V) and frequency (Hz),
- Keyboard for requested language and
- Manuals for requested language.

Supplier(s) should verify that all goods shipped to UNHCR are in good physical condition.

(c) Warranty

Supplier(s) shall provide a minimum warranty period as follows:

- Two (2) years for all Laptop, Desktop, Monitor, Printer and Scanner equipment;
- Four (4) years for Server, Network and Unified Communications equipment.

Where warranty upgrade is not possible, it should be stated separately. The warranty shall commence on the date of goods acceptance by UNHCR.

(d) Maintenance and Support Services

Supplier shall provide worldwide maintenance and support services at no additional charge to UNHCR. Such maintenance and support services shall include, at a minimum, the following:

- Diagnostic and troubleshooting of hardware defects;
- Replacement of parts (inclusive of transport and labor);
- Tagging of equipment with help desk support details such as hotline telephone number and other necessary information;
- Monthly updates on service and support information to UNHCR, including reports describing incidents logged and the resolution of such incidents along with the dates logged and closed.
- English speaking contact person on standby (i.e., by telephone and/or email) for technical and commercial support regularly during 09:00 to 18:00 hours, Central European Time and
- Easy access to the price list provided.

Supplier(s) shall describe in detail how the above maintenance and support services will be provided. Supplier(s) may quote additional optional support services at no charge to UNHCR and subject to the acceptance of UNHCR.

Supplier(s) shall provide the following minimum service levels:

- E-mail and/or telephone support as indicated above
- Acknowledge of receipt shall be provided within 2 working hours from receipt of the request for assistance.
- Response time (by e-mail and/or by phone with the proposed resolution) – within 1 working day after the submission of request for assistance by UNHCR.

(e) Solution Engineering Services

Supplier(s) shall provide on-demand solution engineering services to support the products being supplied.

This service shall be provided remotely or on site upon request by UNHCR. It shall be provided by solution engineers with a minimum of 5 years proven solution engineering experience in the specific product lines and related technologies.

Even if, there is no commitment, the organization estimates to procure a minimum of fifteen (15) person-days per year of services for each of the product category, to be delivered on an agreed schedule during the course of the year. Additional days may be procured if required.

(f) Administrative support

Supplier(s) shall provide a sole point of contact for all administrative related activities. UNHCR shall relate to supplier(s) contacts in all communications regardless of shipping destination.

(g) Outer packaging

Supplier(s) shall package the goods for delivery in accordance with the highest standards of export packaging for the type and quantities and modes of transport of the goods. To reduce the risk of pilfering and damage during transport, suppliers shall use strong, durable and secure packaging, using a tamper-evident tape or seal on packages. For this purpose the minimum requirements for the packaging are:

- using strong corrugated boxes and
- using filament tapes and/or other security tapes which provide proof of unauthorized opening or tampering.

Additional requirements:

- The packing shall be of a sturdy export quality and of a commercial standard that will provide adequate protection of the goods for carriage by air and/or road to final destinations worldwide, including remote locations under adverse climatic and storage conditions, and high humidity.
- The packaging unit is strong, able to be stacked to a height of 4 pallets as static storage and 2 pallets during transport, and resistant to puncturing.
- Pallets shall be band wrapped and black shrink wrapped.
- Deliveries should be packed/palletized in the most cost-effective way to minimize freight costs.
- A detailed packing list showing the contents of each packing unit must be included in or attached to package No .1 of the consignment, clearly indicating the PO number and Requisition number.

Supplier(s) shall confirm that the cost for such packing is included in the unit price offered for the goods.
