**Update on budgets and funding (2023 and 2024)***Summary*

In October 2022, at its seventy-third plenary session, the Executive Committee approved an original annual budget of \$10,211.3 million for 2023.

In 2023, five supplementary budgets amounting to a combined total of \$817.5 million were established in support of the earthquake emergency response situation in Syria and Türkiye; and support for the situations in Pakistan, Somalia, Sudan and Ukraine. Furthermore, a budget reduction of \$100.0 million was implemented in Iraq. They bring the total final budget for 2023 to \$10,928.7.0 million as of 31 December 2023.

The original budget for 2024 as approved by the Executive Committee at its seventy-fourth plenary session in October 2023 amounted to \$10,621.7 million. Since then, a supplementary budget in the amount of \$143.7 million has been established in support of the Sudan situation, bringing the total current budget for 2024 to \$10,765.4 million as of 31 January 2024, the cut-off date for this report.

Pending the annual closure of the accounts for 2023, the provisional total funds available for 2023 amount to \$5,501.2 million, while provisional expenditure stands at \$4,986.9 million. When comparing the final annual budget for 2023 to the provisional total funds available, the result is a funding gap of \$5,427.5 million, or 49.7 per cent.

A draft decision on budgets and funding for 2023 and 2024 is provided in annex IX. Upon request of Member States, the last paragraph of the draft decision has been amended, with the new language in bold.

## I. Introduction

1. This document provides a preliminary update on the 2023 budget.<sup>1</sup> As the closure of accounts had not yet been completed at the time of writing, all year-end figures for 2023 are provisional. This document also provides an overview of the estimated budget requirements for 2024 as of 31 January 2024.

- The original and final annual budget and provisional expenditure for 2023 are summarized in annex I.
- Annex II(a) and II(b) show transfers from the operational reserve for 2023 and 2024.
- Annexes III(a) and III(b) provide an overview of the supplementary budgets by situation, region and impact areas for 2023 and 2024.
- Annex IV shows overall contributions recorded for 2023.
- Annex V gives a breakdown by country of 2023 contributions from non-governmental organizations, foundations, and private donors.
- Annex VI provides the list of unearmarked and softly earmarked voluntary contributions in 2023.
- Annex VII shows the original and current annual budgets for 2024 as of 31 January 2024.
- Annex VIII shows the latest provisional (mid-2023) statistics on persons of concern to UNHCR by country/territory of asylum.
- Annex IX provides the draft decision on budgets and funding for 2023 and 2024.

2. The final annual budget, funding, and expenditure figures for 2023, which will be available following the closure of accounts on 31 March 2024, will be reported at the ninetieth meeting of the Standing Committee in June 2024.

## II. Budgets and funding for 2023

### Total budget

3. In October 2022, at its seventy-third session, the Executive Committee approved an original annual budget of \$10,211.3 million for 2023.<sup>2</sup> The final 2023 budget of \$10,928.7 million represents the sum of the approved original budget of \$10,211.3 million, supplementary budgets totalling \$817.5 million, established by the High Commissioner in the course of 2023, in accordance with rule 208.2<sup>3</sup> of the financial rules for voluntary funds administered by the High Commissioner for Refugees, and a budget reduction of \$100.0 million for the Iraq operation as reported at the eighty-eighth meeting of the Standing Committee in September 2023. Details of the final 2023 budget are provided in annex I.

### Supplementary budgets

4. At the eighty-eighth meeting of the Standing Committee in September 2023, five supplementary budgets totalling \$711.6 million were approved, comprising \$250.0 million in support for the Ukraine situation; \$201.3 million for the earthquake emergency response situation (Türkiye and northern Syrian Arab Republic); \$162.8 million for the Sudan situation; \$55.8 million for the Pakistan situation and \$41.7 million for the Somalia situation. Subsequently, an additional supplementary budget of \$105.8 million was issued for the Sudan situation. This brings the total of supplementary budgets to \$817.5

<sup>1</sup> Figures are presented in millions of United States dollars. The totals in the tables of this document may not add up due to rounding.

<sup>2</sup> See A/AC.96/1224.

<sup>3</sup> See A/AC.96/503/Rev.12.

million as of 31 December 2023. An overview of supplementary budgets by situation is provided in table II.1 below. A more detailed breakdown by situation, region and impact areas is shown in annex III(a).

Table II.1

**2023 supplementary budgets as of 31 December 2023**

(In millions of United States dollars)

	<i>As at 31 July 2023</i>	<i>Changes/Additions</i>	<i>Final as at 31 December 2023</i>
Earthquake emergency response	201.3	-	201.3
Pakistan situation	55.8	-	55.8
Somalia situation	41.7	-	41.7
Sudan situation	162.8	105.8	268.7
Ukraine situation	250.0	-	250.0
<b>Total</b>	<b>711.6</b>	<b>105.8</b>	<b>817.5</b>

**Preliminary programme assessment**

5. In 2023, humanitarian crises grew in scale and complexity with UNHCR responding to 43 emergencies in 29 countries. Some 7.4 million relief items were dispatched to up to 16.7 million people. The global number of forcibly displaced people, resulting from persecution, armed conflict, human rights violations and violence, often compounded by climate emergencies, continued to rise and reached a staggering 114 million. UNHCR responded with life-saving assistance and protection to the people affected by earthquakes in Afghanistan, the Syrian Arab Republic and Türkiye, conflict in Sudan, a deteriorating crisis in the Democratic Republic of the Congo, unprecedented mixed movements of refugees and migrants in Latin America and the Caribbean, as well as floods in Libya and the Horn of Africa. To meet growing challenges, the Office bolstered efforts to collaborate and engage with a wide array of actors.

**Preliminary year-end financial analysis**

6. The impact area distribution of the final budget for 2023 of \$10,928.7 million is shown in table II.2 below.

Table II.2

**2023 final annual budget – as of 31 December 2023**

(In millions of US dollars)

	<i>Requirements</i>	<i>Percentage over total</i>
1. Protect (Attaining favourable protection environments)	2,707.0	25%
2. Respond (Realizing basic rights in safe environments)	5,235.5	48%
3. Empower (Empowering communities and achieving gender equality)	1,381.2	13%
4. Solve (Securing solutions)	1,139.3	10%
<b>Subtotal programmed activities</b>	<b>10,463.0</b>	<b>96%</b>
Operational reserve	453.8	4%
Junior Professional Officer Programme	12.0	0%
<b>Total</b>	<b>10,928.7</b>	<b>100%</b>

7. The final budget of \$10,928.7 million for 2023 comprises programmed activities of

\$10,462.9 million; an operational reserve of \$453.8 million and \$12.0 million for Junior Professional Officers as also shown in annex 1.

8. The preliminary financial analysis for 2023 based on provisional figures, pending the financial closure of accounts, is described below and summarized in table II.3.

9.. The provisional amount of funds available for the period ending 31 December 2023 stood at \$5,501.2 million. This amount comprised:

- \$573.2 million carried over from the budget year 2022;
- \$4,834.8 million in voluntary contributions recorded in 2023, plus \$196.4 million recorded in prior years for activities with implementation in 2023, minus \$247.8 million recorded in 2023 for activities with implementation in future years;
- \$44.6 million allotted to UNHCR from the United Nations regular budget; and
- \$100.0 million currently estimated in other funds available and adjustments, mainly prior-year cancellations and adjustments, and miscellaneous income.

10. When compared to the \$6,180.3 million funds available in 2022, the provisional amount of funds available in 2023 decreased by \$ 679.1 million, or 11.0 per cent.

11. Comparing the total funds available of \$5,501.2 million for 2023 with the total final needs of \$10,928.7 million for the same year, the funding gap amounted to \$5,427.5 million, or 49.7 per cent of the total final needs.

12. Provisional expenditure amounted to \$4,986.9 million. This was \$620.2 million or 11.1 per cent less than the \$5,607. 1 million expenditures in 2022.

13. The carry-over into 2024 is projected to be \$514.3 million, consisting mainly of funds earmarked to specific operations.

Table II.3

### III. Overview of 2024

#### Total requirements

14. The original annual budget for 2024 approved by the Executive Committee at its seventy-fourth plenary session in October 2023, was \$10,621.7 million.<sup>4</sup>

#### Supplementary budgets

15. As of 31 January, the cut-off date for this report, the High Commissioner has established one supplementary budget for 2024 amounting to \$143.7 million in support for the Sudan situation. This brings the total current budget for 2023 to \$10,765.4 million. Further details on the 2024 supplementary budget are shown in annex III(b).

#### Impact areas

16. The 2024 original and current budget are presented in Table III.1 below by impact area. It shows the net effect of the supplementary budget, internal transfers and adjustments made by the High Commissioner in accordance with financial rule 208.2.<sup>5</sup> Detailed figures for the original and current budget for 2024 are provided in annex VII.

Table III.1

#### 2024 original and current budgets by impact area – as of 31 January 2024

(In millions of United States dollars)

	<i>2024 budget</i>			<i>Variance per cent</i>
	<i>Original</i>	<i>Current</i>	<i>Variance</i>	
1. Protect (Attaining favourable protection environments)	2,589.4	2,709.0	119.6	4.6%
2. Respond (Realizing basic rights in safe environments)	4,877.9	4,943.7	65.8	1.3%
3. Empower (Empowering communities and achieving gender equality)	1,401.8	1,374.8	(27.0)	-1.9%
4. Solve (Securing solutions)	1,235.3	1,220.7	(14.6)	-1.2%
<b>Subtotal programmed activities</b>	<b>10,104.4</b>	<b>10,248.2</b>	<b>143.7</b>	<b>1%</b>
Operational reserve	505.2	505.2	0.0	0%
Junior Professional Officer Programme	12.0	12.0	0.0	0%
<b>Total</b>	<b>10,621.7</b>	<b>10,765.4</b>	<b>143.7</b>	<b>1%</b>

17. The response of Member States at the Ad hoc Committee of the General Assembly for the Announcement of Voluntary Contributions to the High Commissioner's Programme (Pledging Conference), held in December 2023, confirmed a sustained commitment to supporting the vital programmes of UNHCR. Initial pledges for 2024 reached \$973.0 million. Although this amount does not cover the entirety of the assessed needs of persons of concern to UNHCR, it enables the Office to plan and continue operations that provide life-saving assistance and protection without interruption. Donors are encouraged to continue to respond generously to the High Commissioner's appeal for resources to meet the requirements for 2024, including through unearmarked funds.

## Notes

The data are generally provided by governments, based on their own definitions and methods of data collection

<sup>1</sup> Country or territory of asylum or residence.

<sup>2</sup> Refugees include individuals recognized under the 1951 Convention relating to the Status of Refugees, its 1967 Protocol, the 1969 Organization of African Unity (OAU) Convention Governing the Specific Aspects of Refugee Problems in Africa, the refugee definition contained in the 1984 Cartagena Declaration on Refugees as incorporated into national laws, those recognized in accordance with the UNHCR Statute, individuals granted complementary forms of protection, and those enjoying temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.

<sup>3</sup> This category is descriptive in nature and includes groups of people who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

<sup>4</sup> Asylum-seekers (with pending cases) are individuals who have sought international protection and whose claims for refugee status have not yet been determined. Those covered in this table refer to claimants whose individual applications were pending at the end of 2022, irrespective of when those claims may have been lodged.

<sup>5</sup> People who are outside their country or territory of origin, typically because they have been forcibly displaced across international borders, who have not been reported under other categories (asylum seekers, refugees, people in refugee-like situations) but who likely need international protection, including protection against forced return, as well as access to basic services on a temporary or longer-term basis.

<sup>6</sup> Refugees who have returned to their place of origin during the reporting year. Source: country of origin and asylum.

<sup>7</sup> Internally displaced persons are people or groups of people who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of, or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized State border. For the purposes of UNHCR's statistics, this population includes only conflict-generated internally displaced persons to whom the Office extends protection and/or assistance.

<sup>8</sup> Internally displaced persons of concern to UNHCR who have returned to their place of origin during the reporting year.

<sup>9</sup> Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. The figure reported includes stateless persons who are also refugees or asylum-seekers from Myanmar, internally displaced persons in Myanmar, or others of concern to UNHCR. UNHCR's statistical reporting generally follows a methodology that reports on one legal status for each person of concern only. However, due to the extraordinary size of the displaced stateless population from Myanmar, UNHCR considers it important to reflect the dual status that this population group possesses. Additional stateless refugees, asylum-seekers, and internally displaced persons will be reported on as UNHCR continues to review and improve its reporting on stateless persons with a dual status.

<sup>10</sup> Refers to individuals who do not necessarily fall directly into any of these groups above but to whom UNHCR has extended its protection and/or assistance services, based on humanitarian or other special grounds. This excludes host community that are assisted by UNHCR, who are reported separately.

## Notes

<sup>11</sup> From various sources such as civil status offices, health institutions, schools, municipal child protection units, and social services, UNHCR estimates the number of people with undetermined nationality (at risk of statelessness).

<sup>12</sup> According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps. Statistical data relating to refugees are entirely for humanitarian purposes. The total number of persons in need of humanitarian assistance services is estimated to be far higher than this figure.

<sup>13</sup> Due the cessation clause process declared by the Government of Angola, in 2021 for nationals of Sierra Leone, Liberia and Rwanda. The “1976 nationals” of Sierra Leone and Liberia are currently under UNHCR protection as others of concern to UNHCR.

<sup>14</sup> All data is as of end-2022. The asylum-seeker figure is based on the number of applications lodged for protection visas under Australia’s onshore humanitarian program with the Australian Department of Home Affairs and appeals lodged with the Administrative Appeals Tribunal and the Immigration Assessment Authority.

<sup>15</sup> All data is as of end-2022

<sup>16</sup> All data is as of end-2022

<sup>17</sup> All data is as of mid-2022

<sup>18</sup> More than 90,000 people in a refugee-like situation were reported for the first time, primarily Haitian nationals, who have received humanitarian visas in the country.

<sup>19</sup> No official data on the actual number of refugees residing in Bulgaria is available. The estimate includes 160,500 Ukrainians who received temporary protection, and 29,100 other refugees.

<sup>20</sup> Naturalization figures refer to the admission of protected persons as permanent residents of Canada. Mid-year stock refers to protected persons who are yet to acquire permanent resident status. The statistics on asylum-seekers (new applications, re-opened/repeat applications and/or appeal application) and refugees individually recognized in Canada include persons who had their claim assessed before the Refugee Protection Division and the Refugee Appeal Division of the Immigration Refugee Board as well as by the Department of Immigration, Refugees and Citizenship Canada through a Pre-Removal Risk Assessment.

<sup>21</sup> The number of other people in need of international protection is estimated from the Regional Refugee and Migrant Response Plan.

<sup>22</sup> The National Victims Registry of Colombia contains the historical accumulated figure of the number of victims of displacement which continues to increase, given that victims continue to be registered in the country. Thus, the total number of persons recognized as victims of displacement (more than 8.5 million), includes the number of internally displaced persons who are subject to attention and/or reparation, i.e. those who meet the requirements to access the measures of attention and reparation established in Colombian Law 1448 (6.9 million). The number of victims of displacement who are deceased, direct victims of forced disappearance and homicide, and other victims who, for various reasons, cannot effectively access these measures, are identified as not being subject to attention or reparation and therefore not included in the figure of 6.9 million. The figure is constantly updated, considering that by legal definition, victims have up to two years to make their declaration and be included in the registry system. See the summary: <https://www.unidadvictimas.gov.co/es/registro-unico-de-victimas-ruv/37394>.

<sup>23</sup> All data is as of end-2022

<sup>24</sup> The statelessness figure is based on a 2019 mapping study jointly conducted by the Government and UNHCR. On 30 June 2022, the cessation clause for Ivorian refugees recommended by UNHCR came into effect.

<sup>25</sup> The 2014 ministerial declaration that offered Prima Facie refugee status to persons fleeing generalised violence from Central African Republic from January 2013 onwards is no longer applicable. As such, all refugees are assessed on an individual basis by the National Commission for Refugees.

<sup>26</sup> UNHCR is currently working with the authorities and other actors to determine the size of the population that found an effective nationality solution under Law 169-14. Since the adoption of Law 169-14 in May 2014, important steps have been taken by the Dominican Republic to confirm Dominican nationality through the validation of birth certificates of individuals born in the country to two migrant parents before 2007. According to information shared by the Dominican delegation during the 2019 High-Level Segment on Statelessness, approximately 48 per cent of the total Group A population of 61,049 persons had been authorized by the National Electoral Board (JCE) to request their nationality documentation. Additionally, as of December 2019, over 1,700 Group B persons (900 of which were children) had submitted applications for naturalization to the Ministry of Interior and of the Police (MIP). However, no naturalization decisions concerning this population had been issued by December 2022.

<sup>27</sup> Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

<sup>28</sup> There are indications that a potentially sizable population of non-displaced stateless persons exists for whom no data is available.

<sup>29</sup> The figure is an estimate based on various sources.

<sup>30</sup> All data is as of end-2022

<sup>31</sup> The refugee population in Jordan includes 30,100 Iraqis registered with UNHCR. The Government of Jordan estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

<sup>32</sup> With respect to persons under UNHCR's statelessness mandate, this figure includes persons of concern covered by two separate Latvian laws. 160 persons fall under the Republic of Latvia's Law on Stateless Persons on 17 February 2004. 187,404 of the persons fall under Latvia's 25 April 1995 Law on the Status of those Former USSR Citizens who are not Citizens of Latvia or Any Other State ("Non-citizens"). In the specific context of Latvia, the "Non-citizens" enjoy the right to reside in Latvia ex lege and a set of rights and obligations generally beyond the rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, including protection from removal, and as such the "Non-citizens" may currently be considered persons to whom the Convention does not apply in accordance with Article 1.2(ii).

<sup>33</sup> The total stateless population in Malaysia includes 8,700 non-displaced stateless persons who may be entitled to Malaysian nationality under the law. This number of non-displaced stateless persons is based on a registration and community legal assistance programme undertaken in West Malaysia by a local NGO with technical support from UNHCR.

<sup>34</sup> The internally displaced persons figure can be found at CONAPO (2021) "Diagnóstico nacional sobre la situación del desplazamiento forzado interno en México" ([https://www.gob.mx/cms/uploads/attachment/file/681782/Diagn\\_stico\\_nacional\\_sobre\\_la\\_situaci\\_n\\_del\\_desplazamiento\\_forzado\\_interno.pdf](https://www.gob.mx/cms/uploads/attachment/file/681782/Diagn_stico_nacional_sobre_la_situaci_n_del_desplazamiento_forzado_interno.pdf)), where it is mentioned that 262,411 IDPs were displaced due to insecurity causes (pg18) and 24,376 internally displaced persons due to disasters (pg 49). These calculations are based on 2020 Population and Housing Census carried out by INEGI.

<sup>35</sup> The estimated figure of persons of concern under the statelessness mandate relates to stateless persons of Rohingya ethnicity in Rakhine State, including stateless Rohingya internally displaced persons in Myanmar. The number of persons of undetermined nationality residing in other states or regions in Myanmar is not currently available. The number of stateless persons remaining in Rakhine State following violence in 2016 and 2017 and large scale departures to Bangladesh is based on detailed estimates for each village tract made by UNHCR, other United Nations agencies and non-governmental organizations in early 2018, which concluded that between 532,000 to 600,000 Rohingya remained in Rakhine State, increasing to 630,000 due to additional displacement since 2022 (including an estimated 153,600 of those Rohingya who have been internally displaced).

<sup>36</sup> Various studies estimate that a significant number of individuals originally from Nepal lack citizenship certificates. While these individuals originally from Nepal are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

<sup>37</sup> The number of refugees was re-based using updated data for 2022 received from the government.

<sup>38</sup> The 1.7 million refugees includes around 1,334,300 registered refugees, and around 146,200 unregistered members of registered families who were being verified at the time of reporting and were recorded through the documentation renewal and information verification exercise (DRIVE). It also includes 600,000 Afghans who arrived in the country since in August 2021 reflecting new population estimates reported by the Government of Pakistan.

<sup>39</sup> The figure for the Russian Federation includes 1.2 million Ukrainians who were granted refugee or temporary asylum status, as well as those recorded in the country in 2023 under other forms of stay.

<sup>40</sup> This figure presents an estimate of persons with undetermined nationality/at risk of statelessness, based on a survey conducted by the Directorate General of Immigration and Emigration (DGIE) in 2010, which found approximately 9,500 persons to be at risk of statelessness. Efforts are underway to conduct a survey that will provide an updated and reliable statistics in 2023.

<sup>41</sup> UNHCR is verifying the number of stateless persons with the Government of Saudi Arabia. Also, only those asylum-seekers facing acute or imminent protection risks are registered by UNHCR. In addition, there are some 3,900 other asylum-seekers who were individually assessed, counselled and advised to inform UNHCR of any changes in their situation, which would justify a decision to register them.

<sup>42</sup> The overall figures for Spain include refugee status (6%), subsidiary protection (9%), temporary protection (50%) and humanitarian reasons (35%).

<sup>43</sup> It has not been possible to combine the estimates of the 3.6 million people displaced within the country at the start of the year with those people newly displaced since April (3 million at mid-year). The true number of internally displaced persons in the Sudan is therefore likely to be higher. See [https://dtm.iom.int/sites/g/files/tmzbd11461/files/products/Methodology\\_Sudan%20Crisis\\_Displacement%20and%20Cross-border%20movement.pdf](https://dtm.iom.int/sites/g/files/tmzbd11461/files/products/Methodology_Sudan%20Crisis_Displacement%20and%20Cross-border%20movement.pdf).

<sup>44</sup> According to some reports many stateless persons have been naturalized since 2011, but no official figures are yet confirmed.

<sup>45</sup> The total statelessness figure includes 581,900 stateless persons reported by the Royal Thai Government and registered with the national civil registration system by the mid-2023.

<sup>46</sup> In the absence of official data, the figure reported refers to stateless persons and persons with undetermined nationality identified by UNHCR partner organizations in Turkmenistan. The decrease in the reported figure corresponds to those people who were naturalized or who had another nationality confirmed.

<sup>47</sup> This figure presents an estimate of persons with undetermined nationality/at risk of statelessness, based on joint outreach mission conducted by the Government of Uganda and UNHCR in September/October 2021, that aimed to provide estimate numbers through self-identification of communities not recognized under the Third Schedule of the 1995 Constitution.

<sup>48</sup> The others of concern figure at mid-2023 corresponds to the number of conflict-affected, non-displaced people assisted by UNHCR during the year. The number of refugee returns to Ukraine is estimated using the DTM data Round 13 of the International Organization for Migration. The report estimates that 861,000 refugees have returned for three months or more, which is the timeframe established in the UNHCR position paper on returns to Ukraine as an indication of the intention for a stable return. Of these 158,000 have returned for between 3 and 6 months and are

---

*Notes*

reported in 2023 statistics, while 703,000 returned more than 6 months ago and are reported retroactively in 2022. In addition, 353,000 refugees have returned to locations in Ukraine that are not their place of origin. UNHCR estimates that 39,000 of them returned in the first six months of 2023, with 314,000 having returned in 2022.

<sup>49</sup> The United Kingdom's stateless figures show the number of stateless individuals recognised through their stateless determination procedure since it began in 2013. In previous years, this figure has been calculated by adding all grants of stateless leave. This resulted in unavoidable double counting for stateless individuals who were applying for further statelessness leave after the expiry of their initial grant of leave. The Government has now provided data for initial and subsequent grants. The subsequent grants have therefore been removed from the previous cumulative figure between 2013 - 2018. Since 2019, the cumulative figure now only includes initial grants of leave following individuals' recognition as stateless. At the mid-2023, the total number of individuals recognised under the United Kingdom's statelessness determination procedure is 349. UNHCR further provides the number of asylum-seekers and refugees whose nationality has been recorded as 'stateless' as part of the asylum process. For this group there has been no formal determination that they are stateless.

<sup>50</sup> No data was available for stateless persons residing in the United States of America. The United States of America has also offered temporary status in certain circumstances to people in need of international protection. UNHCR is in discussions with the United States government about how to best reflect such datapoints for all relevant populations in future reporting cycles.

<sup>51</sup> The mid-2023 statelessness figure refers to stateless persons with permanent residence in Uzbekistan officially reported by the Government of Uzbekistan to UNHCR as of 30 June 2023. Information on other categories of statelessness is unavailable.

## Annex IX

### Draft decision on budgets and funding for 2023 and 2024

*The Standing Committee,*

*Recalling* the Executive Committee's decisions, at its seventy-fourth session on administrative, financial and programme matters (A/78/12/add.1, para 12 (c)) as well as its discussions under the programme budgets and funding item at the eighty-eight meeting of the Standing Committee in September 2023,

*Reaffirming* the importance of greater responsibility-sharing in solidarity with countries hosting refugees,

*Recalls* that the Executive Committee, at its seventy-third session, approved original programmes and budgets for country and regional programmes, global programmes and headquarters under the UNHCR 2023 annual programme budget, amounting to \$10,211.3 million,

*Notes* that the final 2023 supplementary budgets amounted to \$817.5 million for programmes benefiting the UNHCR programmes and projects,

*Takes note* of the increase in the UNHCR annual budget for 2023 to a final total of \$10,928.7 million, representing the sum of the original budget of \$10,211.3 million, the final supplementary budgets of \$817.5 million and a budget reduction of \$100.0 million,

*Recalls* that the Executive Committee, at its seventy-fourth session in October 2023, approved original programmes and budgets for country and regional programmes, global programmes and headquarters under the UNHCR 2024 annual programme budget, amounting to \$10,621.7 million (A/AC.96/74/5),

*Takes note* of the increase in the UNHCR annual budget for 2024 at a current total of \$10,765.4 million as of 31 January 2024, representing the sum of the original budget of \$10,621.7 million and supplementary budget of \$143.7 million;

*Recognizes* that emergencies and unforeseen activities unfolding in 2024 may result in the need for additional or expanded supplementary budgets and that additional resources, over and above those for existing budgets, would be needed to meet such needs, and

*Urges* member States to continue to respond generously **with flexible and unearmarked contributions**, in the spirit of solidarity and in a timely manner, to the High Commissioner's appeal for resources to meet in full the annual budget for 2024.

---
