Asylum Levels and Trends: Europe and non-European Industrialized Countries, 2003

*A comparative overview of asylum applications submitted
in 44 European and 6 non-European countries
in 2003 and before*

24 February 2004

Population Data Unit/PGDS
Division of Operational Support
UNHCR Geneva

<http://www.unhcr.org/statistics>

INTRODUCTION

1. This document analyzes levels and trends in the number of asylum applications submitted in 44 European and 6 non-European asylum countries in 2003. Only the number of asylum applications is included: data on asylum-seekers being accepted as refugees or allowed to remain for humanitarian reasons will only become available later during the year. With the European Union (EU) extending eastwards during 2004, countries neighbouring the expanded EU are becoming more important from the perspective of asylum capacity building and international responsibility sharing. An extended list of Central and Eastern European countries has therefore been included.

2. Important note. The number of asylum countries covered by the various tables in this document differs, depending on the nature of the analysis and the availability of data. **Table 1** provides information on 50 asylum countries for the period 2001-2003, including 44 countries in Western, Central and Eastern Europe. **Table 2** presents asylum trends for 36, mostly industrialized, countries for which long-term trends are available. The comparative country of origin analysis covers 29 major asylum countries for which monthly data by origin are available (**Table 3 -Table 16**).

METHODOLOGY AND DATA LIMITATIONS

3. Under the 1951 UN Convention Relating to the Status of Refugees, Governments provide statistics on the number and conditions of refugees to UNHCR. The statistics presented here are thus based on national asylum laws and administrative procedures. In a few cases, UNHCR has made minor adjustments to improve international comparability, which have been clearly indicated in the text. In the absence of an official Governmental procedure or in case the Government has made a limitation to the 1951 UN Convention, applications for refugee status are submitted directly to UNHCR and adjudicated on the basis of its mandate. For these countries (e.g. Azerbaijan, Bosnia and Herzegovina, Croatia, Cyprus, Hungary, Malta, Rep. of Moldova, Serbia and Montenegro), the UNHCR data have been provided separately.

4. The statistics presented in this document reflect the number of 'new' applications: second or appeal applications are not included. However, because the figures are based on national sources, double counts resulting from persons seeking asylum in more than one country cannot be avoided to the extent that these cases have not been detected by the authorities. As a result, the figures presented here are likely to overestimate the actual number of asylum-seekers.

5. Italy is the only EU member state for which no monthly asylum application data are available. At the time this document was prepared, official estimates for the total number of persons applying for asylum in Italy during 2003 in total or by nationality were not yet available. For Luxembourg, the number of asylum applicants in November and December 2003 is not yet available and has been estimated by UNHCR. The total number of applications submitted in France in December 2003 is not yet available and has been estimated by UNHCR. The French data by country of origin in this document are limited to the first 11 months of 2003.

6. Monthly asylum statistics, particularly those concerning 2003, should be considered provisional, subject to change. Many of the monthly figures reported earlier have been updated retroactively by the Governments. Most asylum countries report the number of persons applying for asylum. For the United States, only the

number of applications ("cases") is available. In agreement with the competent authorities, UNHCR has multiplied the number of asylum cases by a factor of 1.4 to estimate the number of persons. Due to the large variation of family size by nationality, the analysis by country of origin in the US is based on the number of cases. In Table 1 and 2, figures refer to the US fiscal year, whereas the subsequent tables analyzing countries of origin are based on calendar years. For the United Kingdom (UK), tables with the total number of applications reflect the official estimate of the number of persons applying for asylum, but the country of origin analysis is based on the number of cases. On average, there are 1.2 asylum-seekers per application in the UK. The French asylum data used in this document exclude children under the age of 16.

TRENDS BY ASYLUM REGION AND COUNTRY

7. The number of asylum-seekers in Europe and in the non-European industrialized countries continues to fall. In the 50 countries covered by Table 1, 471,600 applications for asylum were submitted in 2003, 20 per cent less than in 2002 (587,400) and 25 per cent below the 2001 level (627,700). The fall in asylum claims in the 44 European countries (-20%) was identical to the decline in the 6 non-European countries (-20%). The decline in the number of asylum claims lodged in 2003 in the 36 industrialized countries listed in Table 2 was also 20 per cent.

8. In the European Union (EU), the number of asylum claims, which had remained stable in 2002 (-2%), fell significantly in 2003 (-22%) to 288,100, the lowest level since 1997. Since 2000, the UK has been the main asylum-seeker receiving country in the EU. In 2003, the level of new claims submitted in the UK (61,050) fell by 41 per cent compared to 2002 (103,100), almost double the average EU decline. It is estimated that in 2003 France will have received more asylum-seekers (51,400) than Germany (50,500) for the first time since 1983. Whereas in Austria, the fourth largest receiving country in the EU, the annual fall in claims (-18%) was close to the EU average, asylum levels in Sweden, the fifth largest recipient country, fell only modestly (-5%). Together, these five countries received 79 per cent of all new asylum claims submitted in the EU in 2003 (see *Table 1*).

9. Denmark, where asylum claims fell by almost two-third in the past two years, received only 2 per cent of all new applications submitted in the EU during 2003. Following a 59 per cent decrease in asylum claims, the EU share of the Netherlands in receiving asylum-seekers fell from 8.5 per cent in 2001 to 5 per cent in 2003. In 2003, Ireland recorded its first significant decrease in annual asylum claims (-32%). The only major increase in the number of asylum applications in 2003 was recorded in two smaller receiving countries, Greece (45%) and Luxembourg (49%) (see *Table 1*).

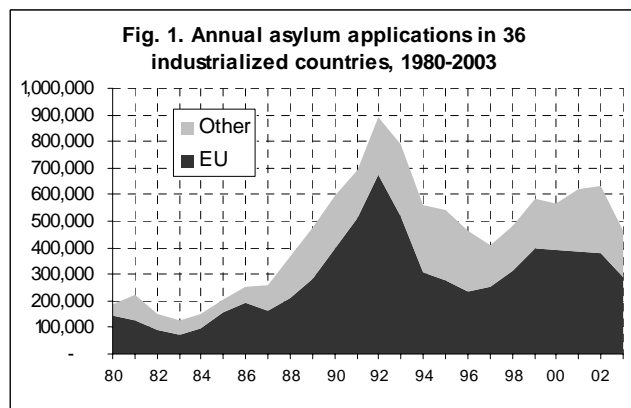

10. The 10 European countries which will accede to the EU on 1 May 2004 received 37,300 asylum applications in 2003, 16 per cent more than in 2002 (32,100), but 15 per cent less than in 2001 (44,000). With these countries joining the EU, the rise in total number of asylum-seekers in the EU will be limited: in 2003, the acceding countries accounted for only 11 per cent of all new asylum claims in the EU. Some of the new EU member states received significantly more asylum claimants in 2003, including Cyprus (364%), Czech Rep. (34%), Malta (63%), Poland (34%) and Slovenia (57%). Conversely, a strong decline in annual claims was recorded in the Baltic States, with Lithuania being the only country receiving a sizeable number of asylum-seekers. In Hungary, the number of asylum-seekers continued to decline in 2003: 63 per cent compared to 2002 and even 75 per cent compared to 2001. During

2001-2003, the 10 accession countries received 1.52 asylum-seekers per 1,000 inhabitants¹, less than half the EU figure (3.22) (see Table 1).

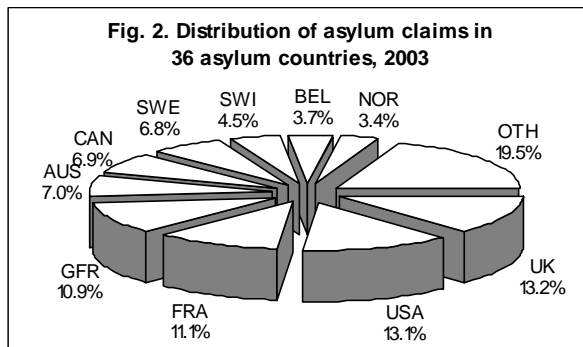

11. In the Nordic countries, a modest increase in annual asylum claims was recorded in 2002 (15%), but a fall was reported for 2003 (-8%). The distribution within the region is changing, however. Denmark continued to reduce the number of asylum-seekers, whereas Sweden and Norway have increased their share. Since 2001, the Nordic region received 6.92 asylum-seekers per 1,000 inhabitants, more than double the EU average.

12. The 15 Central European countries listed in Table 1 recorded a slight rise in asylum levels in 2003 (7%). In 2002, the eight Eastern European countries received some 7,300 asylum-seekers. (The 2003 figures for Eastern Europe are not yet complete.) Azerbaijan, one of the larger destination countries for individual asylum-seekers in the region, recorded a 50 per cent decrease in claims in 2003. Some Central and Eastern European countries host significant refugee or internally displaced populations resulting from mass inflows. These populations, although constituting a major concern for the host countries, fall outside the scope of individual screening and refugee status determination and are thus not covered by this document.

13. In the 36 industrialized countries included in Table 2, the 2003 level of asylum claims was the lowest since 1997. Of the 10.6 million asylum applications recorded in these countries since 1980, the EU received some 65 per cent (6.9 million) (see Figure 1).

14. Among these 36 countries, the UK has been the main receiving asylum-seeker country since 2000. In 2003, the number of persons claiming asylum in the UK (61,050) was virtually identical to the estimated number of persons claiming asylum in the USA (60,700). As a result, the UK and the USA each received 13 per cent of all claims submitted in the 36 asylum countries in 2003. Germany and France each received 11 per cent of all new asylum applications, whereas Austria, Canada and Sweden received 7 per cent each (see Figure 2).

15. Since 1990, more than 5 million asylum-seekers were registered in the EU. Germany received by far the largest proportion of asylum applicants (41%), followed by the UK (16%) and France (9%).

16. On a per capita basis, the ranking of the main receiving countries is quite different, however. Between 1990 and 2003, the 15 EU countries

received 14.0 asylum-seekers per 1,000 inhabitants. Countries which received more than twice as many asylum-seekers as the EU-average are Sweden (39.4) and

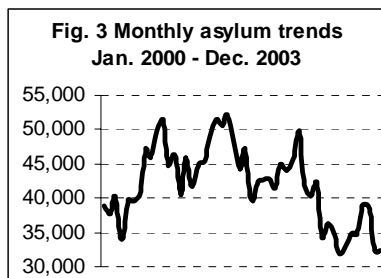

¹ The distribution of asylum claims among the 10 countries is not equal. Excluding Poland, the country with the largest national population, there are 2.70 asylum-seekers per 1,000 inhabitants in the acceding asylum countries during 2001-2003.

Austria (30.8)². Like Germany, Belgium and the Netherlands received almost twice as many asylum-seekers per capita as the EU average. Ireland and the UK received about as many asylum-seekers per capita as the EU as a whole. The Southern European countries are receiving significantly fewer asylum-seekers than the EU average: Greece, Spain, Italy and Portugal received fewer than 5 asylum-seekers per 1,000 inhabitants. Based on national population size, it is evident that the distribution of asylum claims in the EU is quite imbalanced (see *Table on this page*).

17. In practice, many foreigners who claim asylum are not allowed to remain. The share of recognized asylum-seekers in the total population is therefore significantly smaller than the previous paragraph suggests. Moreover, it is believed that a sizeable number of persons claim asylum in more than one country, which inflates the figures when claims per country are added up.

18. During the fourth quarter of 2003, 107,000 asylum applications were lodged in the 29 countries providing monthly data, 6 per cent fewer than in the third quarter. Apart from the second quarter of 2003, the level of applications has not been as low since, at least, 2000. The USA asylum figures for the fourth quarter of 2003 are more than 50 per cent below those of the first

Asylum claims submitted in the European Union, 1990-2003			
Country	Total	Share	Per 1,000 population
Sweden	349,700	6.6%	39.4
Austria	249,800	4.7%	30.8
Belgium	283,400	5.3%	27.5
Netherlands	433,500	8.1%	27.0
Germany	2,168,000	40.7%	26.3
Denmark	117,900	2.2%	22.0
Luxembourg	9,700	0.2%	21.7
Ireland	59,300	1.1%	15.2
UK	851,930	16.0%	14.4
France	485,700	9.1%	8.1
Finland	29,600	0.6%	5.7
Greece	47,000	0.9%	4.3
Spain	113,100	2.1%	2.8
Italy	118,800	2.2%	2.1
Portugal	6,400	0.1%	0.6
Total	5,323,830	100.0%	14.0

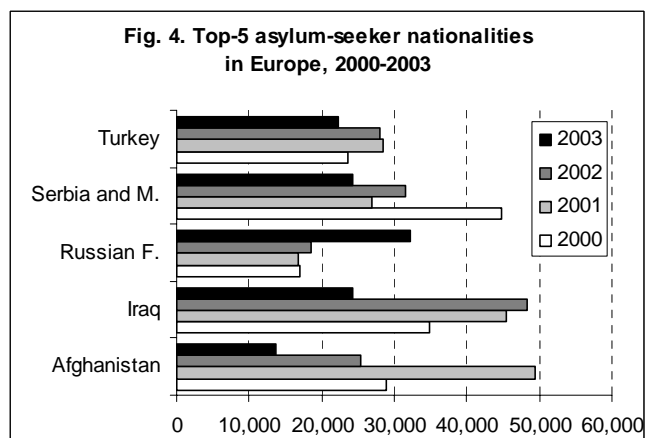

**Fig. 3 Monthly asylum trends
Jan. 2000 - Dec. 2003**

six months of 2002. As a direct result of the strong decline in asylum requests submitted in the UK and the USA as well as the steady fall in claimants in Germany, it is estimated that France became the largest asylum-seeker receiving country during the fourth quarter of 2003 (see *Table 3*). In December 2003, an estimated 33,500 asylum claims were submitted, one of the lowest levels of the past four years (see *Table 4 and Figure 3*).

ORIGIN OF ASYLUM-SEEKERS

19. In 2000, Serbia and Montenegro had been the leading country of origin of asylum-seekers in Europe, in 2001 most asylum-seekers came from Afghanistan, whereas Iraq became the biggest source of asylum-seekers in 2002 (see *Figure 4*).

20. Following a 68 per cent increase in the annual level of asylum claims in 29 industrialized countries, the Russian Federation topped the list of major source countries in 2003. Russian asylum-seekers are concentrated in a few countries: in 2003, Austria was the main

**Fig. 4. Top-5 asylum-seeker nationalities
in Europe, 2000-2003**

² Switzerland received 51.3 asylum-seekers per 1,000 inhabitants during 1990-2003 (see *Table 2*).

recipient of Russian asylum-seekers (20%), followed by Poland (17%), Czech Rep. (15%), Germany (10%) and Slovakia (8%). It is believed that a sizeable portion of Russian asylum-seekers has applied in more than one asylum country. Since May 2003, Russian asylum-seekers, many of whom are originating from Chechnya, constitute the largest single nationality of asylum-seekers in the industrialized world. While the number of Russians claiming asylum has fallen since September/October 2003, they remained by far the largest asylum-seeker nationality in December (see *Table 14*).

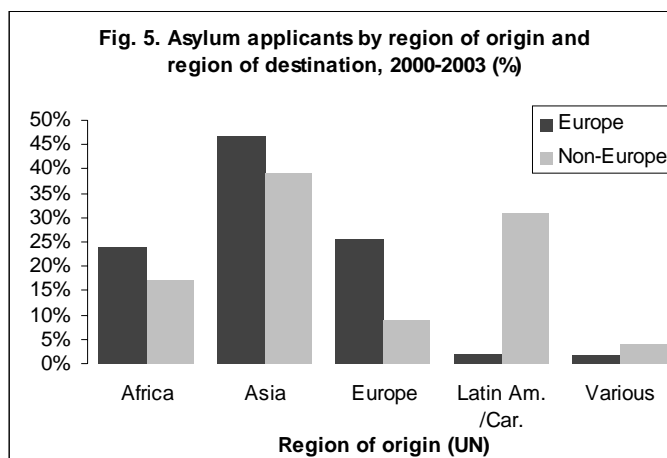

21. Most major asylum-seeker nationalities experienced a significant fall in 2003. Countries of origin whose nationals submitted significantly fewer asylum claims in 2003 included Iraq (-50%), Serbia and Montenegro (-23%), Turkey (-21%), China (-19%) and Afghanistan (-46%) (see *Table 7*).

22. Although the above trends are generally reflected in the EU, there are some exceptions. Most notably, the latest annual increase in the number of Russian asylum-seekers in the EU was only half (34%) the increase in the 29 asylum countries (68%). Similarly, the rise in Chinese asylum-seekers in the EU (23%) coincided with an overall decrease in all 29 countries (-19%). Although the absolute numbers are limited, the number of Liberian asylum-seekers in the EU doubled in 2003 (see *Table 9*).

23. During the fourth quarter of 2003, the number of Iraqi asylum-seekers continued to drop quickly in the 29 asylum countries and reached only 28 per cent of the first quarter level. In contrast, the number of Armenian asylum-seekers doubled during the course of 2003 (see *Table 11*).

24. The latest monthly trends of 2003 should be analyzed with caution, bearing in mind that the origin data from France are not yet available.

25. Since 2000, Asia has been the major region of origin of asylum-seekers in the industrialized world. In Europe, asylum-seekers from Europe and Africa account for some 25 per cent of the total inflow. In the Non-European asylum countries (that is, mostly Canada and the USA), Latin America is the second most important source region. This confirms that proximity is an important determinant of the level and direction of asylum-seeker flows.

**ASYLUM LEVELS AND TRENDS:
EUROPE AND NON-EUROPEAN INDUSTRIALIZED COUNTRIES, 2003**

Table 1. Total number of asylum applications submitted in 50 asylum countries, 2001 - 2003

Notes

Source: Governments, UNHCR. Compiled by UNHCR Geneva (Population Data Unit/PGDS).
The data provided in this table generally reflect the number of persons seeking asylum for the first time.
Figures may differ slightly from the totals by origin or month in this document.
Two dots (..) indicate that the information is not available. All figures rounded to the nearest 10.

TABLE 1. NOTESa. Country notes

Australia. Figures since September 2001 exclude persons who arrived offshore or are being processed on Manus Island, Papua New Guinea or Nauru.

Austria. The 2001 figure includes 5,622 persons who applied for asylum abroad. Few of these, mostly Afghan, asylum-seekers were granted entry.

Azerbaijan. Source: UNHCR

Bosnia and Herzegovina. Source: UNHCR.

Canada. Source: Citizenship and Immigration Canada.

Croatia. Does not include refugee claims submitted to UNHCR (2001: 132; 2002: 69; 2003: 73)

Cyprus. Source: 2001: UNHCR figures. 2002 and 2003: Government. In addition, UNHCR received 392 claims in 2002 and 626 claims in 2003).

France. 2003: UNHCR estimate based on official data for the first 11 months.

FYR Macedonia. 2003: includes 2,278 persons, mainly from Kosovo, with Temporary Humanitarian Assistance Status who applied for asylum.

Germany. Figures refer to "first" applications, excluding "repeat" asylum applications.

Moldova, Rep. of. Source: UNHCR (2001 and 2002). Government procedure since 2003.

Serbia and Montenegro. 2002: excluding 21 applications under UNHCR mandate.

Turkey. Source: UNHCR.

United Kingdom. official estimate of the number of persons seeking asylum. Source: Home Office. Country of origin data based on no. of cases.

USA. Data refer to Fiscal Year (Oct.-Sept.). Figures estimated by UNHCR on the basis of 1.4 persons per application.

b. Regional classification

European Union (14). All current 15 EU member states except Italy.

European Union (15). All current 15 EU member states.

Accession countries (10). Countries acceding to the EU as per 1 May 2004 (Cyprus, Czech Rep., Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia)

European Union (24). EU-14 plus the 10 accession countries.

European Union (25). EU-15 plus the 10 accession countries.

Nordic countries (5). Denmark, Finland, Iceland, Norway, Sweden.

Central Europe (15). Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Rep., Estonia, FYR Macedonia, Hungary, Latvia, Lithuania, Poland, Romania, Serbia and Montenegro, Slovakia and Slovenia.

Eastern Europe (8). Armenia, Azerbaijan, Belarus, Georgia, Rep. of Moldova, Russian Federation, Turkey, Ukraine.

Western Europe (18). EU-14 plus Iceland, Norway, Liechtenstein and Switzerland.

Total Europe (44). All 44 European countries listed.

Non-Europe (6). Australia, Canada, Japan, New Zealand, Rep. of Korea and USA.

Industrialized countries (36). Countries covered by Table 2.

**ASYLUM LEVELS AND TRENDS:
EUROPE AND NON-EUROPEAN INDUSTRIALIZED COUNTRIES, 2003**

Table 2. Number of asylum applications submitted in 36, mostly industrialized countries, 1990 - 2003

Asylum country	Year													Total

Notes

See also Table 1.

Source: Governments, UNHCR. Compiled by UNHCR Geneva (Population Data Unit/PGDS).

The data provided in this table generally reflect the number of persons seeking asylum for the first time.

Two dots (..) indicates that the information is not available. All figures have been rounded to the nearest 10.

Cyprus. Refers to applications submitted under the UNHCR mandate (up to 2001) and to the Government of Cyprus (2002-2003).

Denmark. Since 1998, the data include persons who have been returned to a safe third country or processed under the Dublin Convention.

Hungary. Applications submitted under UNHCR Mandate: '90: 450; '91: 380; '92: 400; '93: 260; '94: 230; '95: 460; '96: 520; '97: 890; '98: 270.

Netherlands. Data for 1999 include 3,430 applications submitted by persons from Kosovo under the Humanitarian Evacuation Programme (HEP).

Notes

See notes Table 1.

France fourth quarter 2003: UNHCR estimate.

United Kingdom: no of persons estimated by the Government.

USA: number of cases multiplied by 1.4

EU-14: all member countries of the European Union, except Italy (no quarterly data available).

Western Europe: EU-14 plus Liechtenstein, Norway and Switzerland.

Central Europe: Bulgaria, Czech Republic, Hungary, Poland, Romania, Slovakia and Slovenia.

Europe: All European countries listed.

Non-Europe: All five non-European countries listed.

Notes

See notes Table 1.

France December 2003: UNHCR estimate.

United Kingdom: no of persons estimated by the Government.

USA: number of cases multiplied by 1.4

EU-14: all member countries of the European Union, except Italy (no quarterly data available).

Western Europe: EU-14 plus Liechtenstein, Norway and Switzerland.

Central Europe: Bulgaria, Czech Republic, Hungary, Poland, Romania, Slovakia and Slovenia.

Europe: All European countries listed.

Non-Europe: All five non-European countries listed.

**ASYLUM LEVELS AND TRENDS:
EUROPE AND NON-EUROPEAN INDUSTRIALIZED COUNTRIES, 2003**

Table 5. Asylum applications lodged in 29 asylum countries by origin, 2002

Countries with monthly data only (see Table 3).

Values between 1 and 4 have been replaced with an asterisk. UK and USA: cases.
