Category	Indicator	2009	Standard	Notes
Public Health Programme	Access to Health Services			
	Do PoCs have access to national health facilities?	##	Yes	
	Do PoCs have to pay for primary health care?			
	Nº of HC facilities where PoCs have free access			
	Nº of consultations per trained clinician per day	N/A	ⓘ ≤ 50	
	Do PoCs have access to 2nd and 3rd level care?	N/A	ⓘ Yes	
	Does a referral system exist?	Yes	✓ Yes	
Are referral cases reviewed by a board (or alt. system)?	No	✗ Yes		
Public Health Status	Public Health Impact			
	Crude Mortality Rate (CMR) (from survey)	N/A	ⓘ ≤ 1.5	
	Under-fives Mortality Rate (U5MR) (from survey)	N/A	ⓘ ≤ 3.0	
	Patient load			
	Average number of new patients per month	N/A	ⓘ	
	Average number of repeat patients per month	N/A	ⓘ	
	Average number of referrals per month	N/A	ⓘ	
	U5 Morbidity (%)			
	Crude Morbidity (&)			
	Proportional Morbidity			
Nutrition	Malnutrition			
	Global acute malnutrition rate (GAM)	N/A	ⓘ ≤ 5%	
	Severe acute malnutrition rate (SAM)	N/A	ⓘ ≤ 2%	
	Prevalence of anaemia in children under five	N/A	ⓘ ≤ 20%	
	Prevalence of anaemia in women of reproductive age	N/A	ⓘ ≤ 20%	
	Average number of kilocalories per person per day	N/A	ⓘ 2100	
Reproductive Health	Maternal and Newborn Health			
	Do pregnant women have access to antenatal care?	N/A	ⓘ Yes	According to surveys 68% of women displaced have no access to sexual and reproductive health.
	Do pregnant women have access to safe delivery care?	N/A	ⓘ Yes	In Colombia VSBG is used as a weapon of war in armed conflict, however the health services are not offering the PEP kit consistently and the PEP kit isn't available in the emergency services. We do not know the exact proportion of women receiving the PEP kit.
	Do women have access to family planning?	No	✗ Yes	
Sexual and Gender-based Violence				
Proportion of rape survivors who receive PEP <72 h	N/A	ⓘ 100%		
Proportion of rape survivors who receive ECP <120 h	N/A	ⓘ 100%		
HIV/AIDS	Prevention			
	Condom distribution rate (Nr. of condoms/person/month)	0	✗ ≥ 0.5	The work we do is basically preventive because IDPs have no access to these programs nor IEC material. They have no access to condoms, only when we distribute at workshops.
	Does appropriate IEC material exist for PoCs?	No	✗ Yes	Colombia has the PMTCT program but for the IDPs is more difficult to access health services because when they change from city, they lose the affiliation of the company providing health services and they do not know the health services network.
	Are risk groups targeted with prevention programs?	No	✗ Yes	We do not know the number of IDPs who are infected with HIV as well as their treatment. The mandatory health plan providing antiretrovirals, but this does not guarantee that IDPs have access to them, for the reasons mentioned above.
	Proportion of donated blood units screened for HIV	100%	✓ 100%	
	Do pregnant & lactating women have access to PMTCT?	Yes	✓ Yes	
	Care and Treatment			
	Do PoC's have equal access to ART as host community?	No	✗ Yes	
	Nr. of HIV Positive POCs receiving ART	unknown	ⓘ variable	
	Prop. of HIV-pos mothers receiving cotrim. prophylaxis	unknown	ⓘ 100%	
Prop. of HIV-pos infants receiving cotrim. prophylaxis	unknown	ⓘ 100%
