UNHCR’s overall mandate is to provide international protection and humanitarian assistance to refugees and persons of concern while working to find durable solutions to their situation. In order to fulfil its mandate the Office has established ten Global Strategic Objectives (GSO):

1. Advocate for and support governments in the creation and maintenance of an international protection regime and the provision of protection and assistance, pursuant to the Agenda for Protection (AfP).

2. Promote refugee self-reliance in stabilized situations as a critical step in the pursuit of durable solutions.

3. Pursue voluntary repatriation and sustainable reintegration, resettlement or local integration for refugees, with a special focus on those in protracted refugee situations, and with particular reference, where applicable, to the strategies, mechanisms and tools developed in the Framework for Durable Solutions and Convention Plus initiatives.

4. Strengthen UNHCR’s preparedness and response capacity to assist States in responding to emergencies.

5. Strengthen UNHCR’s support for collaborative efforts to comprehensively address situations of internal displacement.

6. Build effective partnerships through participatory planning involving all stakeholders, comprehensive assessment of needs, and formulation of strategies that utilize the full range of resources available.

7. Advocate for the inclusion of persons of concern to UNHCR in the Millennium Development Goals (MDGs), in particular, the initiatives for a global partnership for development (MDG8).

8. Enhance the quality, effectiveness and efficiency of UNHCR’s operations, in particular by institutionalizing results-based management.

9. Enhance UNHCR’s oversight and accountability framework in order to improve compliance with UNHCR’s policies and standards.

10. Continue to develop a flexible, gender-balanced workforce that can meet the challenges of the future, including enhanced capacity to operate in situations of insecurity.

As part of the effort to institutionalize results-based management and mobilize action within the organization around a shared set of strategic objectives, the High Commissioner has established a series of measurable performance targets for 2006, articulated as quantifiable results, around a set of revised Strategic Objectives for 2006. The revised Strategic Objectives equally reprise the Agenda for Protection and contribute to the achievement of the Millennium Development Goals. These targets will be the focus of decision making and resource allocation in 2006.
