**Notes**

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

<sup>1</sup> Country or territory of asylum or residence. In the absence of Government estimates, UNHCR has estimated the refugee population in most industrialized countries, based on recent refugee arrivals and recognition of asylum-seekers. For Canada, Australia and New Zealand, estimates are based on arrivals/recognition during the past five years, whereas for most European countries and the USA a 10-year period has been applied. These periods reflect the different naturalization rates for refugees in these regions.

<sup>2</sup> Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and/or those granted temporary protection.

<sup>3</sup> Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

<sup>4</sup> Refugees who have returned to their place of origin during the calendar year. Source: Country of origin and asylum.

<sup>5</sup> Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance.

<sup>6</sup> IDPs protected/assisted by UNHCR who have returned to their place of origin during the calendar year.

<sup>7</sup> Refers to persons who are not considered nationals by any State under the operation of its laws.

<sup>8</sup> Persons of concern to UNHCR not included in the previous columns including a.o. involuntarily relocating persons (Russian Fed.), local residents-at-risk (Serbia, Kosovo), Sahrawis (Mauritania), Afghan asylum-seekers (Russian Fed., UNHCR est.), Muslims from the Philippines (Malaysia), Colombians (Ecuador and Venezuela).

<sup>9</sup> According to the Government of Algeria, there are an estimated 165,000 Saharawi refugees in the Tindouf camps.

<sup>10</sup> The decision to apply *prima facie* status to Iraqis originating from south and central Iraq was taken in January 2007. As a consequence, UNHCR estimates on Iraqi refugees at end-2006 do not take into account the total number of Iraqis in the respective countries. Estimates for the number of Iraqis in Egypt and Turkey at end-2006 are not available.

<sup>11</sup> Although counted as IDPs here (and officially referred to as such by the Montenegrin Government), this population consists of persons displaced from Serbia (Kosovo) who are not being accorded the same rights as Montenegrin citizens in practice.

<sup>12</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

<sup>13</sup> According to the Constitutional Court of Colombia, there are serious discrepancies between the real magnitude of the situation and the figures of the national registration system. In a latest Order of Compliance to the Landmark Judgment on Displacement, the Court cites the Director of the *Agencia Presidencial de Acción Social y la Cooperación Internacional* who acknowledged in public statements that IDP figures in Colombia are close to 3 million (Order of Compliance 218, dated 11 August 2006, related to the Landmark Judgment T-025).

**Notes**

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

<sup>1</sup> In the absence of Government estimates, UNHCR has estimated the refugee population in most industrialized countries, based on recent refugee arrivals and recognition of asylum-seekers. For Canada, Australia and New Zealand, estimates are based on arrivals/recognition during the past five years, whereas for most European countries and the USA a 10-year period has been applied. These periods reflect the different naturalization rates for refugees in these regions.

<sup>2</sup> Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and/or those granted temporary protection.

<sup>3</sup> Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

<sup>4</sup> Refugees who have returned to their place of origin during the year. Source: Country of origin and asylum.

<sup>5</sup> Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance.

<sup>6</sup> IDPs protected/assisted by UNHCR who have returned to their place of origin during the year.

<sup>7</sup> Refers to persons who are not considered nationals by any State under the operation of its laws.

<sup>8</sup> Persons of concern to UNHCR not included in the previous columns including a.o. involuntarily relocating persons (Russian Fed.), local residents-at-risk (Serbia, Kosovo), Sahrawis (Mauritania), Afghan asylum-seekers (Russian Fed., UNHCR est.), Muslims from the Philippines (Malaysia), Colombians (Ecuador and Venezuela), etc.

<sup>9</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

<sup>10</sup> The decision to apply *prima facie* status to Iraqis originating from south and central Iraq was taken in January 2007. As a consequence, UNHCR estimates on Iraqi refugees at end-2006 do not take into account the total number of Iraqis in the respective countries. Estimates for the number of Iraqis in Egypt and Turkey at end-2006 are not available.

<sup>11</sup> Although counted as IDPs here (and officially referred to as such by the Montenegrin Government), this population consists of persons displaced from Serbia (Kosovo) who are not being accorded the same rights as Montenegrin citizens in practice.

<sup>12</sup> This figure only refers to Palestinians under the UNHCR mandate.

<sup>13</sup> According to the Government of Algeria, there are an estimated 165,000 Saharawi refugees in the Tindouf camps.

<sup>14</sup> According to the Constitutional Court of Colombia, there are serious discrepancies between the real magnitude of the situation and the figures of the national registration system. In a latest Order of Compliance to the Landmark Judgment on Displacement, the Court cites the Director of the *Agencia Presidencial de Acción Social y la Cooperación Internacional* who acknowledged in public statements that IDP figures in Colombia are close to 3 million (Order of Compliance 218, dated 11 August 2006, related to the Landmark Judgment T-025).

**Table 3. Refugee population and changes by country/territory of asylum, 2006****N.B.** For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1).

The columns "Other" (increases and decreases) include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2006 does not equal the population at the start of the year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation\* shows a best estimate, based on country of asylum and country of origin reports.

**Table 3. Refugee population and changes by country/territory of asylum, 2006****N.B.** For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1).

The columns "Other" (increases and decreases) include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2006 does not equal the population at the start of the year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation\* shows a best estimate, based on country of asylum and country of origin reports.

<sup>1</sup> According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

<sup>2</sup> With the introduction of the new Immigration Act in 2005, the Central Aliens Register now encompasses new residence categories and simultaneously refines previous ones, allowing for a better differentiation of refugee statistics. The refugee data included in this table is an estimate.

<sup>3</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

**Table 4. Refugee population and changes by origin, 2006****N.B.** For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1).

The columns "Other" (increases and decreases) include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2006 does not equal the population at the start of the year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

<sup>1</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

<sup>2</sup> According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

**Table 5. Refugee population and changes by major origin and country of asylum, 2006**

**N.B.** The refugee population is included in this table if the number at the end of 2006 was 5,000 or more.

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1).

The columns "Other" (increases and decreases) include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population at the end of 2006 does not equal the population at the start of the year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

Voluntary repatriation\* shows a best estimate, based on country of asylum and country of origin reports. Figures below 5 have been replaced with an asterisk.

**Table 5. Refugee population and changes by major origin and country of asylum, 2006**

**N.B.** The refugee population is included in this table if the number at the end of 2006 was 5,000 or more.

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1).

The columns "Other" (increases and decreases) include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population at the end of 2006 does not equal the population at the start of the year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

Voluntary repatriation\* shows a best estimate, based on country of asylum and country of origin reports. Figures below 5 have been replaced with an asterisk.

**Notes:**

<sup>1</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

<sup>2</sup> Refers to Palestinians under the UNHCR mandate only.

<sup>3</sup> According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

**Table 6. Asylum applications and refugee status determination by country of asylum, 2006*****Important note:***

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedure have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions.

**Table 6. Asylum applications and refugee status determination by country of asylum, 2006**

***Important note:***

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedure have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions.

For information on recognition rates see Table 7.

A dash ("-") indicates that the value is zero or not available.

\* Data refers to number of cases or mix of persons and cases.

<sup>1</sup> Protection indicators (calculated by UNHCR):

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 10

A dash ("-") indicates that the value is zero or not available.

<sup>1</sup> Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 100%.

<sup>2</sup> UK figures at first instance are rounded to the closest five.

\* T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.

\*\* L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Immigration and Naturalization Service; EO=US Executive Office of Immigration Review; JR=Including Judicial Review; CA=Swiss cantonal regulations;

FIH=Swiss first instance humanitarian decisions; FA=Including first instance and appeal/review decisions.

\*\*\* Data refers to number of cases (C) or persons (P): App. = Applications; Dec. = Decisions taken during the year.

**Table 8. Asylum applications and refugee status determination by origin, 2006**

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

**Table 8. Asylum applications and refugee status determination by origin, 2006**

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

\* Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December 2005 minus Cases pending as at 1 January 2005 divided by Cases pending as at 1 January 2005 \* 100%.

<sup>1</sup> Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December 2005 minus Cases pending as at 1 January 2005 divided by Cases pending as at 1 January 2005 \* 100%.

<sup>2</sup> T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.<sup>3</sup> L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Immigration and

Naturalization Service; EO=US Executive Office of Immigration Review; JR=Including Judicial Review; FA=Including first instance and appeal/review decisions.

<sup>4</sup> Data for humanitarian status in Switzerland cannot be provided by origin because of the delay between according humanitarian status and the latter entering into force.<sup>5</sup> UK figures are rounded to the closest five.

Two dots ("..") indicate that the value is not available.

**Table 11. Demographic composition of populations of concern to UNHCR, end-2006**

\* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (below 10-20%), the percentages may not be representative for the total population of concern in the country.

**Important note:**

The population for which demographic data is available does not necessarily equal the total pop. of concern in the country.

\* According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

\*\* UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

\*\*\* According to the Constitutional Court of Colombia, there are serious discrepancies between the real magnitude of the situation and the figures of the national registration system. In a latest Order of Compliance to the Landmark Judgment on Displacement, the Court cites the Director of the *Agencia Presidencial de Acción Social y la Cooperación Internacional* who acknowledged in public statements that IDP figures in Colombia are close to 3 million (Order of Compliance 218, dated 11 August 2006, related to the Landmark Judgment T-025).

**Table 12. Major locations and demographic composition of populations of concern to UNHCR, end-2006**

\* Type of location: C=Camps/Centers; U=Urban; R=Rural/Dispersed; V=Various/Unknown.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

This table shows locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

**Table 12. Major locations and demographic composition of populations of concern to UNHCR, end-2006**

\* Type of location: C=Camps/Centers; U=Urban; R=Rural/Dispersed; V=Various/Unknown.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

This table shows locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

**Table 12. Major locations and demographic composition of populations of concern to UNHCR, end-2006**

\* Type of location: C=Camps/Centers; U=Urban; R=Rural/Dispersed; V=Various/Unknown.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

This table shows locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

**Table 12. Major locations and demographic composition of populations of concern to UNHCR, end-2006**

\* Type of location: C=Camps/Centers; U=Urban; R=Rural/Dispersed; V=Various/Unknown.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

This table shows locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

**Table 12. Major locations and demographic composition of populations of concern to UNHCR, end-2006**

\* Type of location: C=Camps/Centers; U=Urban; R=Rural/Dispersed; V=Various/Unknown.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

This table shows locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

\*\*\* According to the Constitutional Court of Colombia, there are serious discrepancies between the real magnitude of the situation and the figures of the national registration system. In a latest Order of Compliance to the Landmark Judgment on Displacement, the Court cites the Director of the *Agencia Presidencial de Acción Social y la Cooperación Internacional* who acknowledged in public statements that IDP figures in Colombia are close to 3 million (Order of Compliance 218, dated 11 August 2006, related to the Landmark Judgment T-025).

<sup>1</sup> According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

<sup>2</sup> UNHCR figures for Pakistan only include Afghans living in camps who are assisted by UNHCR. According to a 2005 government census of Afghans in Pakistan and subsequent voluntary repatriation during the year, there are an additional 1.3 million Afghans living outside camps, some of whom may be refugees. Those Afghans living outside camps receive no UNHCR assistance except access to UNHCR-facilitated voluntary repatriation. These figures are currently under review as result of the registration of Afghans which took place in Pakistan from October 2006 to February 2007.

<sup>3</sup> According to the Constitutional Court of Colombia, there are serious discrepancies between the real magnitude of the situation and the figures of the national registration system. In a latest Order of Compliance to the Landmark Judgment on Displacement, the Court cites the Director of the Agencia Presidencial de Acción Social y la Cooperación Internacional who acknowledged in public statements that IDP figures in Colombia are close to 3 million (Order of Compliance 218, dated 11 August 2006, related to the Landmark Judgment T-025).

**Table 14. Internally displaced persons (IDPs) protected or assisted by UNHCR, 2006**

***Important notes:***

This table reflects only IDPs who are protected/assisted by UNHCR. These are also not necessarily representative of the entire IDP population in a given country. Most of the world's IDP situations are not covered by UNHCR and are thus not reflected. For global estimates relating to conflict-induced IDPs, visit the Internal Displacement Monitoring Centre at [www.internal-displacement.org](http://www.internal-displacement.org)

Most IDP figures are rough estimates and rounded to the nearest hundredth.

<sup>4</sup> Revised figures for start-2006.

<sup>5</sup> The 2006 figures include only ethnic Georgian population displaced from Abkhazia and South Ossetia. It does not include an estimated 10,000 persons of Osset origin displaced within South Ossetia in non-Georgian controlled territory.

<sup>6</sup> Although counted as IDPs here (and officially referred to as such by the Montenegrin Government), this population consists of persons displaced from Serbia (Kosovo) who are not being accorded the same rights as Montenegrin citizens in practice.

**Notes**

<sup>1</sup> This definition refers mainly to *de jure* stateless persons but also includes *de facto* stateless persons as well as persons who have difficulties establishing their nationality.

<sup>2</sup> The number represents the official figure on stateless persons in Azerbaijan (1,800 persons) as well as UNHCR estimates of ethnic Armenians.

<sup>3</sup> The increase over 2005 is due to a revised estimate based on a survey of Bihari settlements conducted by UNHCR. According to Bangladeshi court decisions, these individuals should be considered as citizens of Bangladesh, however, Biharis often have difficulties establishing their nationality and are generally not issued passports.

<sup>4</sup> The figure is based on the Belarus definition of a stateless person as "a person who is not a citizen of Belarus and who has no proof of citizenship of another country."

<sup>5</sup> It has yet to be determined whether statelessness has remained a significant problem after the November 2004 Congolese Nationality Law was enacted.

<sup>6</sup> Revised statistics provided by the Danish Immigration Service.

<sup>7</sup> Almost all persons recorded as stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

<sup>8</sup> Revised statistics provided by UDI Finland.

<sup>9</sup> Data refers to 1 January 2006 (no data available for 2006).

<sup>10</sup> Data refers to 1 January 2005 (no data available for 2006).

<sup>11</sup> Ethnic Kazakhs with foreign citizenship who move to Kazakhstan and who may find themselves in a stateless situation for a period of time while applying for Kazakhstan citizenship. After reviewing the naturalization process and accompanying safeguards, UNHCR is satisfied that Kazak citizenship will be accorded. Thus, this population is not expected to be reflected in 2007 statistics.

<sup>12</sup> Revised Government estimate. Previous estimate was determined to be inaccurate.

<sup>13</sup> The Republic of Latvia enacted a Law on Stateless Persons on 17 February 2004, which replaced the Law on the Status of Stateless Persons in the Republic of Latvia of 18 February 1999, and which determines the legal status of persons who are not considered as citizens by the legislation of any State and whose status is not determined by the 25th April 1995 Law (quoted below).

<sup>14</sup> The Republic of Latvia by the 25th April 1995 Law on the Status of Those Former USSR Citizens who are not Citizens of Latvia or of Any Other State granted a transitional legal status to permanently residing persons (non-citizens) entitling them to a set of rights and obligations beyond the minimum rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, and identical to those attached to the possession of nationality, with the exception of certain limited civil and political rights. Therefore, the exclusion clause provided by Article 1.2 (ii) of the 1954 Convention is applicable to the non-citizens of Latvia.

<sup>15</sup> The vast majority of these persons hold permanent residence permits while a small number possess temporary residence permits.

<sup>16</sup> 2005 estimate of number of ethnic Kazakhs who renounced their Mongolian citizenship under the nationality law to obtain the citizenship of Kazakhstan and who subsequently sought to restore their Mongolian nationality but had not yet reacquired it.

<sup>17</sup> Figure from start-2006 includes only stateless returnees while end-2006 includes all stateless persons present in northern Rakhine State (Rohingyas).

<sup>18</sup> This revised figure is based on a UNHCR review of available Government estimates of the total stateless population in Nepal.

<sup>19</sup> The figure does not distinguish between stateless refugees and non-refugees.

<sup>20</sup> Revised statistics provided by UDI Norway.

<sup>21</sup> Data refers to end-2005 (information for 2006 not available at time of publication).

<sup>22</sup> The 56,741 at the start of 2006 included an official figure of 16,741 stateless persons who held a temporary residence or residence permit in the Russian Federation and an estimated 40,000 other stateless persons. No precise data is available for 2006 on reduction of statelessness due to naturalizations of stateless persons. The 50,000 at the end of 2006 is a UNHCR estimate in the absence of Government statistics.

<sup>23</sup> A large number of *de jure* and *de facto* stateless persons acquired nationality under legislation adopted in 2003 but information gathered by UNHCR in the field indicates that several thousand *de facto* stateless persons remain.

<sup>24</sup> Figures are based on estimates from Amnesty International and Human Rights Watch.

<sup>25</sup> Statements made by the Royal Government of Thailand have indicated that there may be between 800,000 and 2.5 million persons with an undetermined nationality in Thailand.

<sup>26</sup> The figure is based on an extrapolation from the number of stateless persons registered in the 2001 census in Ukraine. It includes 6,735 stateless persons officially registered with the Ukrainian Ministry of Interior.

<sup>27</sup> No official statistics on the number of stateless persons in the United Arab Emirates exist, but according to estimates by Refugees International there may be approximately 100,000 stateless Bidoons residing in the country.

<sup>28</sup> End-2006 figure refers to 2005. No figure for 2006 was available at the time of publication.
