These questions can be used to set up a debate in class. You can choose a “for” group and an “against” group.

The questions can also be used for students to discuss and research findings in groups and write essays on their opinions and research.

1 : If you were a refugee, what kind of help would be most valuable to you and why?

2 : Whose responsibility should it be to help refugees?

An international organization, a government, a local organization, communities or neighbours?

Why do you think it is their responsibility?

3 : Who might be best placed to provide help to refugees in a camp environment or in an urban environment?

An international organization, a government, a local organization, communities or neighbours?

Why do you think they are best placed to do this?
