

EHN 2021

In brief ...

The virtual workshop on Essentials of Humanitarian Negotiation was held from 25-28 May 2021. A total number of **27 participants** across the region attended the virtual workshop.

The EHN online workshop was designed to achieve the following objectives: - increase overall emergency response capacity in the region by improving participants' understanding of humanitarian negotiation basics, and increasing their ability and confidence to use them in real-life applications; - facilitate more concerted protection-oriented emergency responses by promoting principled negotiation among partners; and - meet other humanitarian professionals, network, and exchange ideas.

Live feedback from EHN participants at the end of the workshop:

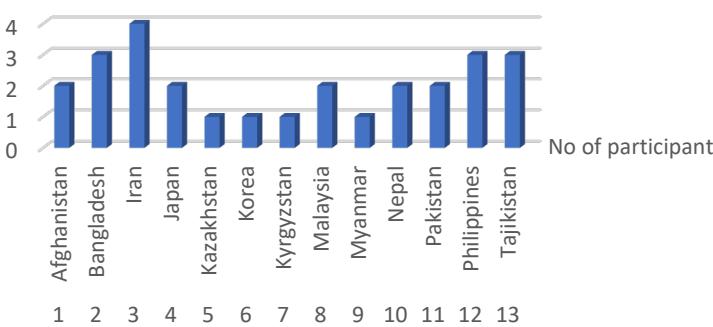

How would you describe your overall virtual EHN workshop experience?
