

PARTNERSHIPS IN EGYPT

NOVEMBER 2022

Overview

UNHCR has established partnerships with various actors to deal with the crucial issues of refugee protection and assistance. To more efficiently carry out its mandate, UNHCR works with both implementing and operational partners to extend services and programmes to the refugee community in Egypt.

UNHCR funds implementing partners. Institutions that do not receive funding from UNHCR but play a major role in refugee operations are known as operational partners.

Implementing Partners

The Egyptian Foundation for Refugees Rights, EFRR, provides immediate and long-term legal assistance to protection challenges facing refugees from all nationalities across Cairo and Alexandria.

Refuge Egypt provides primary healthcare services to the refugee community, capacity-building and job placement opportunities for working-age refugees and asylum-seekers in Cairo.

CARE Egypt works with UNHCR on reducing gender-based violence (GBV) amongst refugee communities in Egypt while enhancing community-based approaches through social-cultural and economic empowerment interventions.

Caritas Egypt supports refugees and asylum-seekers of different nationalities living in Cairo and governorates on the North Coast. Caritas Egypt conducts vulnerability assessment studies, supports people with specific needs, and provides livelihood support, community empowerment and health interventions.

Catholic Relief Services (CRS) supports refugee children and youth to access safe and relevant educational opportunities in Egypt. They also extend support related to tertiary education to some 600 university students through the provision of DAFI scholarships. CRS also provides livelihood assistance in the form of capacity building and support to small enterprises.

Terre des Hommes (TdH) implements community and youth empowerment interventions. Also, it works with persons with specific needs to enhance their mental health, and psychosocial well-being and facilitates their protection, shelter support, health advocacy, and other tailored training programs. In the North Coast, TdH provides emergency and ongoing psychosocial support and mental health care, facilitation of protection, housing support, and expedition of community support.

International Emerging Film Talent Association works on empowering an untapped talent pool of refugee artists and filmmakers in Egypt, creating the first exchange of knowledge, practice, and experience between Egyptian and refugee cultural actors to create collaborative artistic works.

Save the Children (SCI) provides monitoring and case management support to unaccompanied and other vulnerable children to support them in their transition to adulthood. They also provide primary and secondary healthcare consultations for refugees and asylum seekers in Egypt.

United Nations Relief and Works Agency (UNRWA) provides medical assistance to up to approximately 3,039 Palestinian persons arriving from Syria and living in Egypt.
