Individuals repatriated

Since 2002, UNHCR Iran has supported nearly 1 million refugees to voluntary repatriate in safety and dignity to Afghanistan and Iraq, taking into account the UNHCR Non-Return Advisory<sup>1</sup> and UNHCR Global Guidance Note on the International Protection Needs of People Fleeing Afghanistan<sup>2</sup>. However, as the situation in Afghanistan remains fragile, only a small number of Afghan refugees in Iran have shown willingness to return to their home country. Repatriation of Afghan students to obtain visas to continue their studies in Iran has significantly declined to 10% of the repatriates in 2023. UNHCR supports the Iranian Government in providing Afghans with health, education and livelihoods opportunities. Individuals who are healthy, educated and have marketable-skills are typically more likely to return and feel capable of rebuilding their lives. Nonetheless, ultimately, a longer-term, political solution for Afghanistan's protracted crisis is the only way to ensure safe, sustainable and voluntarily return of refugees.

## Age gender breakdown

## Top 5 reason of return to Afghanistan by month (% of individuals)

As of end of August 2023, UNHCR facilitated the repatriation of 388 individuals which includes 386 Afghans and 2 Iraqis – 66 individuals repatriated in the month of August. This represents a 56% increase compared to the same period in 2022. Amongst the main reasons for return, returnees stated facing financial difficulties in Iran, and family reunification.
