Update on Achievements

Highlights

- 37 families of 97 refugees and asylum seekers voluntarily repatriated to their country of origin, Burundi. Cash was provided as a pre-departure package, at 150 USD per individual, to cover basic needs on arrival in their country of origin.

- A total of 89,381 (36,541 Female) attended schools during the reporting period at pre-primary, primary, and secondary school levels.

- Over 400 children received birth certificates. UNHCR is working with the County Civil Register to ensure that refugee children have access to civil documentation.

Achievements and Impact

- **Registrations:** Since January, UNHCR Kakuma has registered 14,881 arrivals, 7,877 including newborns. Most of the new arrivals came from South Sudan, Burundi, the Democratic Republic of the Congo, and Somalia.

- **Child Protection:** 26 child protection concerns were received. 61 Best Interest Assessments (BIAs) were received from UNHCR’s Child Protection partner for review during the month. 17 tickets represent cases identified through the field post counselling sessions or internally while 9 were inter-agency referrals.

- 47 Best Interest Determination requests were recorded during the reporting period.

- 5100 (2244 girls) were engaged through child-to-child activities that were conducted at the child-friendly spaces across the camp, in the settlement, and at the inter-agency centres.

- Child rights club meeting were conducted for 664 (334 female) children across Kakuma and Kalobeyei. The members were taught on children rights, their responsibilities at home.

- Proof of life was conducted in the month of November. A double distribution was given for general distribution to 261 households of 633 individuals.

- 5 radio talk show were facilitated in the reporting period through various radio stations across Kakuma and Kalobeyei. The sessions were aimed at creating awareness and psycho educating the children together with their caregivers and the community at large.

- 711 children were engaged during the celebration of the Universal Children’s Day.

- 90 children (44 girls) were engaged in 2-day art therapy sessions. The objective of the session was to understand the role of a facilitator in a child friendly space, understanding the stages of development in children and age-appropriate activities as well as the importance of art and play therapy.

- 120 teenage mothers were engaged in monthly feedback sessions.

- 200(48female) caregivers were sensitized on child friendly spaces available in Kakuma. They were informed of the services offered at a child friendly space.

- **Youth Protection and Development:** UNHCR coordinated and facilitated the first virtual training of 104 refugee girls.

- 231 (182 girls from Kakuma camp and 49 girls from Kalobeyei settlement) participated in various sessions of peer-to-peer meetings which focused on menstrual health management, hygiene, peer influence, and teenage pregnancies.

- Kakuma Chess Project training was rolled out in Angelina Jolie Primary school with a total of 40 pupils being trained online with FIDE team.

- 1 Mentorship session on Social and Life Skills were conducted for Divas Female Football Team, comprised of 17 players. The objective of the sessions was to empower them with skills on how to analyse situations affecting them in the community to enable them to make informed decisions.

- 263 (219 from Kakuma and 44 from Kalobeyei) girls were reached through peer-to-peer meetings sessions to discuss issues affecting them, including gender violence and sexually transmitted diseases.
Basic Digital Literacy training was conducted for 97 young females at the Youth Centres.

**Gender-Based Violence (SGBV):** In October 2021, UNHCR partner for SGBV services identified 90 new SGBV cases. All survivors received psychosocial support and are following a case plan under UNHCR supervision.

2 case conference was held during the month to deliberate on prolonged cases at the Safe Haven. In the same period, 2 female survivors of psychological and emotional abuse were discharged from Safe Haven.

Two LGBTIQ+ case interviewed during the month.

14 group therapy sessions were conducted using the Group Problem Management Plus (GPM+) approach, a psychological intervention used in assisting people who have gone through adversities.

Group sessions and occupational therapy continued during the month for the second cohort of 21 South Sudanese women were enrolled in the Behaviour Modification/Alcohol Abuse Recovery program.

**Legal Protection:** 436 children received birth certificates. UNHCR is working with the County Civil Register to ensure that refugee children have access to civil documentation.

### Identified Needs and Remaining Gaps

- Community-based child protection networks were reported to have limited their reporting of cases of child marriage for fear of victimization by the community.

- It was observed that in some of the food distribution points, there was an increase in the number of child food collectors because most of the children’s parents had returned to South Sudan, leaving the children with their relatives with return unknown. Alternative food collector arrangements were made for them. There are emerging trends of gangs (teenage girls & boys) in Hongkong who are robbing and engaging in illegal activities.

- Limited court presence in Kakuma.

- Due to continued flow of asylum seekers into Kenya from neighbouring countries and will the RSD backlog, asylum seekers face delays in processing of their asylum claims. The waiting period from registration to RSD decision is about four years contrary to the 90 days as provided in the 2006 Refugee Act.

- Increased teenage youth engaging in alcoholic especially in (Hongkong Group 45 & 47).

- Some children are not attending school because they are engaging in gambling through borrowed phones, and then they go to the video halls. When they lose the money, they steal food from their home they sell to get more money to gamble.

- The absence of regular court sessions amounted to delay in finalizing cases.
Achievements and Impact

- A total of 89,381 (36,541 Female) attended schools during the reporting period at pre-primary, primary, and secondary school levels.
- To support increased retention and transition across the education continuum, remediation and Catch-up classes have been provided to 1,868 girls at primary, secondary schools.
- 263 (131 Female) learners both from the host and refugee communities were supported with Mental Health and Psychosocial Support in schools.
- 75 Secondary school teachers from the host and refugee communities trained on ICT integration and use of the KOLIBRI platform in teaching and learning in schools, enhancing education quality.
- 8 students (3 from host community) awarded Vocational Training Education Scholarship.
- Registration for the Competency-Based Assessment completed for 5,544 (2,385 Female) grade 3 children in Kakuma. The registration was done on the KNEC portal.
- 10,024 (4,359 Female) learners in grades 4 and 5 supported to sit for the National Competency-Based Assessment in Kakuma.
- UNHCR with its partners supported 4,205 (1,987 Female) learners with learners' kits (5 exercise books, a pen, pencil, an eraser).
- 50 (11 Female) members of schools Board of Management and community leaders were trained on roles and responsibilities, with a focus on strengthening their financial management skills to utilize school improvement grants effectively.
- 68 (31% Female) teachers received training on data management and the use of digital devices in teaching and learning. The focus is on using digital devices to collect and share data in real-time, using tablets distributed and internet connectivity in schools.
- Funding support for education was received from various donors, including the US Bureau of Population, Refugees, and Migration (PRM), the Humanitarian Aid Department of the European Commission (ECHO), the EU Trust Fund (EUTF), the Educate A Child (EAC) Programme of the Education Above All (EAA) Foundation, the UK Foreign, Commonwealth & Development Office (FCDO), Education Cannot Wait (ECW), Global Affairs Canada, the Mastercard Foundation and Stichting Benevolentia (Porticus).

Identified Needs and Remaining Gaps

- Continued support for efforts to include refugee children in the national education system by finalizing ongoing strategic and policy development work with the Ministry of Education.
- Supporting post-Covid-19 education recovery efforts, emphasizing safe school operations requirements, making up for lost study time, teachers' professional development, and meeting the specific needs of girls and children with disabilities.
- Improving teacher numbers, quality, and motivation through various approaches, including increased opportunities for pre-service and in-service training, registration of refugee teachers, and teacher interns' deployment. Teacher mentorship and coaching support are needed.
- Support with the roll-out of the new Competency-Based Curriculum (CBC). Expand education access and improve the quality of teaching and learning at the pre-primary, primary, and secondary school.
levels by providing additional infrastructure, resources, and amenities needed for learners to succeed, building quality assurance and fostering local participation sustainability.

- Support schools with education technology solutions and equipment (computers, laptops, tablets, Multi-Touch Display, etc.) to provide curriculum supplementation and increase student motivation and experiences.
- Increased support for the education of marginalized children through integrated inter-sectorial linkages and support.
- Accelerated Education, catch-up classes, and remedial support.
- Increased efforts to expand higher education access through the Turkana West University campus’s operationalization and increased partnership for the online, onsite and blended provision.

**CASH BASED INTERVENTIONS (CBI)**

**Achievements and Impact**

- A total of 510 mental health consultations were made compared.
- **CBI for Shelter:** In the month of November, 20 households comprising of 76 individuals in Kalobeyei Settlement, Village 1 and 2 received 3rd instalment cash of a total of KES 1,599,500 for the third and last stage of construction of their permanent houses including household latrines.
- **CBI for CRIs:** In Kakuma camp, bi-monthly allowance for Core Relief Items (CRIs), constituting soap and sanitary materials, of amount KES 46,489,002 was disbursed by UNHCR for the months of October and November to 34,225 families’ bank accounts through KCB. The cash grant directly benefited 158,751 (74,976 Female) Persons of concern, including 46,987 women within the reproductive age bracket receiving cash for hygiene and sanitary items.
- In Kalobeyei settlement, a total of KES 18,288,630, 3 months (October, November and December) entitlement were disbursed to 7,455 (66% female headed) households of 42,705 individuals, for the same objective, through Equity bank accounts. This included 11,998 female individuals within reproductive age bracket receiving cash assistance for hygiene and sanitary items.
- **CBI for Energy:** A total of KES 13,404,636.00 bi-monthly cash allowance for Energy provision for the months of October and November was disbursed to 34,225 households of 158,751 individuals in Kakuma refugee camp, and KES 5,403,636.00 3-months’ cash entitlement for the same objective distributed to 7,455 households of 42,705 in Kalobeyei Settlement. Three months’ cash distribution to Kalobeyei was intentionally aimed at aligning the subsequent bi-monthly disbursements to the Proof of Life exercise. Traders from the local host community are the key energy traders mainly supplying firewood and charcoal into the camp.
- **CBI for VOLREP:** Total of 14,550 USD (KES 1,665,975) was disbursed to 37 families of 97 refugees and asylum seekers for return to country of origin-Burundi. The cash provided as pre-departure package, at 150 USD per individual, to cover basic needs on arrival in the country of origin was distributed by Equity Bank Over the Counter at Kakuma airstrip, before boarding the aircraft.
Total Cash Disbursements: Cumulatively, UNHCR CBI disbursed a total of KES 86,943,575 in the month of November to Persons of Concern in Kakuma and Kalobeyei for various interventions: KES 1,599,500 cash for Shelter, KES 64,777,632 cash for Core Relief Items, KES 18,808,272 for Energy, KES 92,196 cash for Education (Scholarships), and KES 1,665,975 cash for VOLREP.

Bank Accounts Activation: During the reporting period, 1114 bank accounts at KCB and 210 at Equity bank were activated for families in Kakuma camp and Kalobeyei settlement respectively which will enable them to receive their cash entitlements for CRIs and Energy.

Communicating with Communities: 3 sessions of community awareness creation via community dialogue meetings were conducted through the CBI Communication with communities’ project implemented by Film Aid Kenya with funding from UNHCR. Of the 3 sessions, 2 were carried out in Kakuma and 1 in Kalobeyei. The dialogues were aimed at disseminating CBI-related information and to provide feedback to persons of concern. A total of 46 community leaders attended the meetings.

Identified Needs and Remaining Gaps

Information Dissemination Issues: Inadequate knowledge on transfer values of regular disbursements for Core Relief Items and Energy entitlements, by some persons of concerns due to low literacy levels. UNHCR and its Communications Partner Film Aid International (Kenya) continue to utilize different strategies to raise awareness on the different CBI programmes through various media, to address the gap.

Achievements and Impact

In October, 434 skilled deliveries were recorded within the various health facilities compared to 460 in September.

A total of 598 mental health consultations were made compared.

4 (non-covid-19) cases were referred from Kakuma and Kalobeyei health facilities to Lodwar, Nairobi, and Eldoret. These were mainly emergency cases in need of specialized care not available in Kakuma and diagnostic imaging services such as CT scan to assist in managing various health conditions. Additional 18 cases were referred to Kakuma Mission Hospital for imaging services.

18 new cases of COVID-19 were reported in November 2021. Cumulatively, 1,166 COVID-19 positives have been identified from a sample size of 17,196.

As of 26th November, 2,182 individuals were admitted at the two quarantine facilities in Kakuma and Kalobeyei.

5,197 individuals in Kakuma camp and Kalobeyei settlement have received their first dose of COVID-19 vaccine at the Ammusait General Hospital in Kakuma, of whom 2,734 are considered fully vaccinated having received their second COVID-19 dose. Among those who have received the first
dose, 1,167 are humanitarian staff and 4,030 persons of concern, while 774 humanitarian workers and 1,960 persons of concern are fully vaccinated.

- UNHCR, Sub-County Ministry of Health, Turkana County in collaboration with the health partners participated in the trachoma mass screening and drug administration campaign in efforts to eradicate trachoma in the country.
- UNHCR, Sub-County Ministry of Health, Turkana County in collaboration with the health partners participated in the trachoma mass screening and drug administration campaign in efforts to eradicate trachoma in the country.

**Identified Needs and Remaining Gaps**

- **HDU and Oxygen:** There is a need to establish a High Dependency Unit (HDU) and an oxygen plant that will significantly increase the life-saving capacity of the health facilities.
- **Diagnostic Equipment:** To improve capacity to diagnose diseases early, there is a need to provide additional diagnostic laboratory and radiology equipment.
- **Human resource:** The current ratio of consultations per clinician per day stands at 78, above the UNHCR and WHO recommendation of 50. There is a need to recruit additional qualified health workers to improve health services and reduce reliance on auxiliary staff to provide medical care.
- **Infrastructure:** Most of the health facilities need major renovation and reconstruction; additionally, in most areas, catchment population has surpassed the capacity of the respective facilities that serve them. Two of the facilities were constructed over 20 years ago and require total reconstruction, while two facilities require major renovation. This will enable the implementation of proper infection prevention measures, especially in the context of COVID-19 and ensure the provision of health services in a dignified environment that significantly impacts treatment outcomes.

**FOOD SECURITY AND NUTRITION**

**Achievements and Impact**

- 221 children with severe malnutrition were admitted into the Outpatient Therapeutic Program (OTP) in September 2021 compared to 289 in September.
- 1,070 children with moderate malnutrition in Kakuma camp and Kalobeyei settlement were reached through the Supplementary Feeding Programme (SFP).
- 46 pregnant and lactating women benefited from the targeted supplementary feeding program (TSFP) during the month.
- The Stabilization Centre admitted 13 severely malnourished children, during which cure rates were maintained above 75% for both OTP and SFP.
- UNHCR’s partners continued to provide health education to pregnant and lactating women and parents of children during the nutrition distribution sessions while observing the COVID-19 guidelines.
15,469 pregnant and lactating women and parents of children were reached with health education and nutrition messages in August during nutrition distribution exercises.

The mother-to-mother support group continued to facilitate meetings which reached 488 beneficiaries. The support group members continued screening and referring malnourished and children at risk of nutrition clinics. Out of the 44 Family MUAC referrals made, 12 were enrolled to OTP, 25 to SFP, and 7 children did not meet the admission criteria to the nutrition programs.

54 support groups with a total of 1,068 members graduated after completing their 2-year support group course. The support group members continued screening and referred malnourished and children at risk of malnutrition to nutrition clinics. Out of the 68 Family MUAC referrals made, 15 were enrolled to OTP, 37 to SFP, and 16 children did not meet the admission criteria to the nutrition programs.

The annual Standardised Expanded Nutrition Survey was completed successfully in November. Results from the survey shows poor Global acute malnutrition (GAM) levels in Kakuma 10.6% (8.1-13.6) and acceptable GAM levels for Kalobeyei 9.3% (7.2-11.9). SAM prevalence was 1.5% (0.8-2.8) in Kakuma and 1.4% (0.7-3.0) in Kalobeyei settlement. There was however no major increase from the previous survey done in 2019.

Anaemia levels among children 6-23 months was highest among the different age groups assessed with 76.1% in Kakuma and 72.3% in Kalobeyei reported to be anaemic.

The second round of Malezi Bora Campaign commenced on 29th November 2021 and will run through to 6th December 2021. It aims at scaling up deworming, Mass MUAC screening and vitamin - A supplementation targeting children 6-59 months in both Kakuma and Kalobeyei

### Identified Needs and Remaining Gaps

- The ongoing food rationing with the current food basket at 60% of the recommended quantity of 2100Kcal/person/day continues to affect the food security in Kakuma and Kalobeyei. Hence, there is a need for increased surveillance to ensure all new cases of malnutrition are detected early and linked to care and follow-up.
- Water shortages have been reported at IRC hospital as well as some in the camps.
- High prevalence of anaemia reported in the survey for both women and children in Kakuma and Kalobeyei. This requires concerted effort to address micronutrient deficiencies.
A bimonthly energy grant of Kshs 13,404,636.00 was disbursed to 158,751 individuals (34,225 HHs) in Kakuma Camp for November - December Cycle.

An energy grant of Kshs 5,403,636.00 was disbursed to 42,705 individuals (7,455 HHs) in Kalobeyei Settlement for November – January Cycle.

In November, 131.98 MT’s of firewood were distributed to various institutions in Kakuma Camp and Kalobeyei Settlement.

281.96 MTs firewood were procured and delivered to firewood distribution centre 4.

A pilot Smart Energy monitoring & control system was installed at the Office section of the UNHCR compound to test power consumption patterns.

Installation of the 60KWp system at Biashara Centre commenced.

Kakuma’s Green Energy Solutions & Environmental interventions were showcased during the 7th Devolution Conference that took place in Wote, Makueni County from 23rd – 26th November 2021.

41,800 tree seedlings were produced and propagated in September cumulatively in all the tree nurseries, and 23,846 of the tree seedlings were distributed to the refugee community, institutions, green belts, and host community for planting.

A total of 1,70 (40 female) individuals were reached on forest conservation and management awareness.

A pilot project to test Electric Pressure Cookers (EPCs) in Kalobeyei Settlement commenced in November. The project will test 100 EPCs for HH and SMEs using the 60KWp Solar mini grid in Kalobeyei.

**Identified Needs and Remaining Gaps**

- Significant deforestation & environmental degradation in & around the refugee settlements which threatens safe living conditions for both refugees and host communities.
- The Boreholes generator rooms do not have fuel storage tanks, leading to more frequent refueling activities which are costly in terms of vehicles movement and resource allocation, also not easy to monitor hence leading to unscrupulous fuel use.
- Kakuma Camps and Kalobeyei settlement remain completely offgrid. Majority of the PoCs lack access to high-tier electricity and rely on electricity from independently operated diesel-powered generators.
- Absence of financial guarantees to the private sector and development agencies to implement medium to long-term projects in Kakuma (5 – 10 years). Private sector and development partners’ engagement is essential to achieve Camp electrification targets.
- UNHCR only meets 11% of the cooking energy needed for families to cook three meals a day.

**Achievement and Impact**
232 Transitional shelters were constructed during the reporting period to accommodate newly arrived refugee households. Cumulatively, 8,134 shelters have been constructed since the beginning of the year.

In Kalobeyei, 240 households are currently converting their temporary shelters to concrete houses through UNHCR's Cash for Shelter programme (CBI).

Several construction projects have been completed which include Renovation works at the RAS processing center, Renovations for the gated community staff Quarters at clinic 6, Renovation of Kalobeyei workshop, Renovation works of main Hospital Pediatric Ward, Construction works at IRC Kakuma AMMUSAIT Hospital, Construction of low-cost bus station in Kalobeyei Integrated Settlement, Construction of stone pitching of Storm Water Drain at Clinic 4, and Construction of additional works at Kalobeyei Sport Complex.

Some new projects have also commenced including Construction of Toilet for Lodwar Magistrate court; Renovation of the Kakuma Airstrip Fence; and Conversion of 3 containers to sports libraries at the youth centers in Kakuma.

A few construction projects are still in progress including, Rehabilitation and Construction of One Stop Shop in Kakuma, Rehabilitation and gravelling of 8km Road in Kakuma and Construction of School Latrines.

**Identified Needs/Challenges and Remaining Gaps**

- Poor road network and drainage system and inaccessible road network within the camp remains a challenge in accessing some of the areas, this affects mobility and timely delivery of shelter materials to site.
- Lack of adequate shelter materials affected timely relocation of the refugees from communal areas to the community.

**WATER AND SANITATION**

**Achievement and Impact**

- The current latrine coverage for Kakuma camp is at 46% as compared to 38% for last year which means there is slight increase of 8% subject to further validation by the finding of the ongoing latrine census.
- Latrine coverage for Kalobeyei settlement currently stand at 98% as compared to 71% of last year and through Cash base intervention (CBI), introduction innovation tools such SATO etc it has successfully made implementation latrine in Kalobeyei.
- 44,142 persons in Kalobeyei settlement reached with sanitation and hygiene messages during the proof of life exercise that ended on 1st November 2021. During the exercise, PWJ staff and CLTS facilitators supported communities to observe Covid 19 prevention protocols.
- Distributed 645 poles and 83 slabs to 129 households in village 3 for household latrine construction.
- Conducted ODF celebrations for 104 neighbourhoods declared ODF at the settlement. In attendance, the county health team, UNHCR WASH team, NRC, WORLD VISION, SCA, DCC and community members.
- Celebrated World Toilet Day themed 'Valuing Toilets' at the reception centre in Kalobeyei on awareness on the importance of latrine use and maintenance.
- Implementation of CBI for household Latrine in cycle 10 at Kalobeyei settlement in village 3 is at the final leg of monitoring. Improved construction of Household latrines in cycle 10 in comparison with low figures in the previous cycles.
- In Kakuma camp 5667 households reached with sanitation and hygiene messages on latrine construction, use and maintenance, hand washing with soap/ash, Covid 19 transmission prevention and vaccination and solid waste management at household level.
- 54 slabs and 230 poles distributed to 100 households for latrine construction in Kakuma camp.
- 25 Blocks Certified ODF in Kakuma 1, 2 & 3.
- 595 communal latrines so far it has been utilized by new arrivals relocated to the community in Kakuma camp and Kalobeyei settlement out of planned target of 680 communal latrines for the year but 51 alone was utilized on the month of November 2021.
- Indoor Residual Spraying (IRS) Exercise it has been concluded in Kalobeyei settlement, Kakuma 1, 2 & 4 and currently at Kakuma 3 which will be concluded by the end of this week.

Identified Needs/Challenges and Remaining Gaps

- Solid waste management remain challenge a cross Kakuma camp and Kalobeyei settlement there is need to strengthen key solid waste management messages & SWM policy through training hygiene of promoters to conduct door to door visit/campaigns from Community level, market/Public places & proper handling & disposal of solid waste management to the designated dumping sites.
- Challenges in distribution of materials for household latrine construction due to limited logistic mobility.
- Additional boreholes required to be drilled & solarized to minimized water challenges & Increase water supply a cross Kakuma camp & Kalobeyei settlement.
There is need to increase storage capacity for both Kakuma camp & Kalobeyei Settlement

Need to replace aged and dilapidated water supply infrastructure by replacing worn out pipes, fittings and leaking elevated steel tanks

COMMUNITY EMPOWERMENT AND SELF RELIANCE

Achievement and Impact

- 30 women in Kalobeyei were trained and facilitated with seeds to prepare tomatoes seedbed and plant cowpeas under two shade nets.
- 324 individuals aged 17-35 were trained on digital literacy program comprising ICDL (International Computer Driving License), and Microsoft for Philanthropy.
- 35 artisans from MADE 51 participated in a PSEA sensitization session conducted by DRC.
- 1,433 individuals benefited from business advisory and consulting services offered by AEC Kenya.
- KES 330,000 was approved and disbursed to 1 host community and 8 refugees as loans.

Working in partnership

UNHCR continues to work closely with the Government of Kenya through the office of the Deputy County Commissioner (DCC), Turkana County Government, the Refugee Affairs Secretariat (RAS), and partners to ensure support to refugees and asylum seekers. Monthly Inter-Agency meetings chaired by UNHCR and RAS continue to be held virtually using Microsoft Teams platform.

UNHCR Partners in Kakuma

Church World Service (CWS) | IsraAID Kenya | Deutsche Gesellschaft für Internationale | Zusammenarbeit GmbH (GIZ) | Team&Team International | Swisscontact | Kakuma Mission Hospital (KMH) | Center for Victims of Torture (CVT) | SNV Netherlands Development Organisation (Stichting Nederlandse Vrijwilligers)

Financial Information
Total recorded contributions for the Kenya Operation amounts to 87.8 million US dollars. UNHCR is grateful for the critical support provided by donors who have contributed to the Kenya operation as well as those who have contributed to UNHCR programmes with unearmarked and broadly earmarked funds.
