### SUMMARY

The refugee and asylum-seeker population in Kenya stood at 565,843 persons as of 30 of September 2022, which comprises 499,601 (89%) refugees and 66,242 (11%) asylum-seekers. Compared with August 2022, there is an increase of 4,007 individuals in the total population, from 561,836 to 565,843, mainly because of new arrivals from South Sudan, the Democratic Republic of the Congo, Ethiopia, and Burundi.

The PRIMES integrated Biometrics Identity Management System (BIMS) was actively used throughout the reporting period to secure individual identities of the population, thus ensuring continuity of identity over time and in different locations across the world, reducing avenues for identity fraud and other misrepresentations. Population Registration and Identity Management Eco-System (PRIMES) is a platform for all UNHCR registration and identity management tools and applications.

Additionally, the Global Distribution Tool (GDT) was used to extract verification and assistance distribution lists from PRIMES and to authenticate the identity of beneficiaries for assistance provided by UNHCR and partners. The Self-Service Kiosk (KASI) was used by refugees to make various appointments, including complaints, documentation and data correction/updates, with UNHCR (Protection), Department of Refugee Services and the Kakuma Kalobeyei Challenge Fund. KASI2 continued to be utilised by refugees who are residing in urban areas in order to access services provided by UNHCR and the Department of Refugee Services (DRS). In Dadaab, a total of 45,856 individuals were profiled and are awaiting registration by the Department of Refugee Services.

### 1. Population decreases

**a. Voluntary Repatriation:** From 1st of January to 30 of September 2022, UNHCR and partners have assisted a total of 1,500 persons to return to their places of origin voluntarily.

**b. Resettlement:** From 1 January to 31 of August 2022, a total of 914 refugees departed to various resettlement countries (September 2022 resettlement figures will be updated during the October 2022 reporting period).

**c. Other Decreases:** Closure/inactivation of 160 individuals was undertaken during the continuous registration activities within the month of September 2022.

### 2. Population increases

**a. Registration:** Total number of persons registered since the beginning of January 2022 stands at 27,644 (Camps 21,444 and Urban 6,200) — an average increase of 3,072 per month. A total of 3,886 individuals were registered during the reporting period;  

- i. In-Situ: 229
- ii. New arrival: 2,619
- iii. New birth registration: 1,038

**b. Other Increases:** A total of 121 individuals were reactivated after re-establishing contact with Department of Refugee Services during the continuous registration activities within the month of September 2022.
