

Notice on the cessation of registration activities

Source: UNHCR Malta

Date: 29/04/2021

UNHCR would like to inform persons of concern in Malta (holders of refugee status or subsidiary protection, asylum-seekers or stateless persons) that for the time being it will discontinue the registration of new files in its database, **effective 30 April 2021**. Any forms received on **30 April 2021 or later** will not be processed for registration by UNHCR Malta.

It is **IMPORTANT** to note that persons of concern to UNHCR who are not registered with UNHCR Malta will still access the support of UNHCR or our partners on the **same basis** as persons who are registered with the office.

Registration forms of holders of international protection submitted by **29 April 2021** will be processed and registered on the UNHCR database. Anyone who submitted a form **by 29 April 2021** will be called in due course to finalise the registration process. Due to COVID-19, the office stopped registration activities in 2020 and is currently reviewing ways to process pending registration forms with public health measures in mind.
