

Important Notice: COVID-19 vaccine for pregnant women

Source: Government of Malta
August 2021

COVID-19 vaccine recommendations for pregnant women

- Pregnant women who have passed **the first 12 weeks of pregnancy** can receive a COVID-19 vaccine.
- Pregnant women who wish to take the COVID-19 vaccine should **obtain a letter from their doctor or obstetrician recommending the vaccination**. This letter should be presented at the vaccination centre.
- Vaccination for pregnant women **CANNOT** take place at the mobile vaccination clinic.

Anyone wishing to book an appointment for the vaccine may do so by calling 145 or by sending an email on covid-vaccine@gov.mt
