

# MALTA Factsheet

## Overview

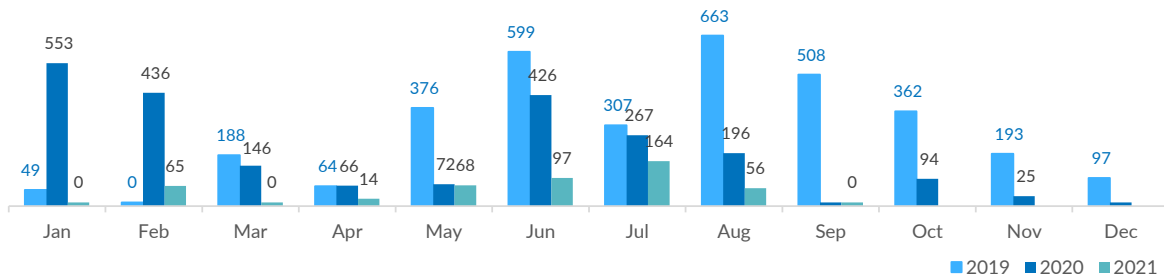

Between 1 January and 30 September 2021, there were 464 sea arrivals to Malta. This is a 79% decrease compared to the same period last year (2,162 sea arrivals to Malta from January to September 2020).

Of the 464 persons that arrived in Malta, 63 landed on Malta spontaneously in February. The AFM rescued 14 persons in April, 68 persons in May, 164 persons in July and 48 persons in August. Following NGO rescue, 2 persons were medically evacuated to Malta in February, 8 in August. In June, 97 persons were rescued by a private boat. There were no arrivals in January, March or September 2021.

The UNHCR team attends and monitors disembarkations, providing interpretation support to the authorities and giving initial information on reception and asylum procedures to all new arrivals.

## Monthly Sea Arrivals

Jan 2019 - Sep 2021

Sea arrivals in 2020  
(as of end December 2020)

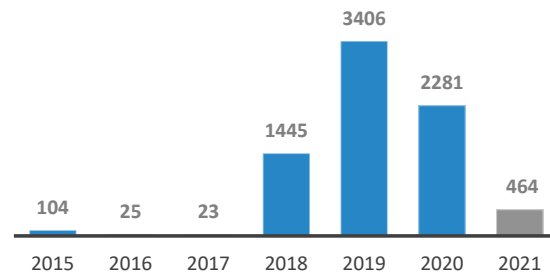

**2,281**

Sea arrivals in 2021  
(as of 30 September 2021)

**464**

## Yearly Sea Arrivals

2015 - 2021 (until end September)

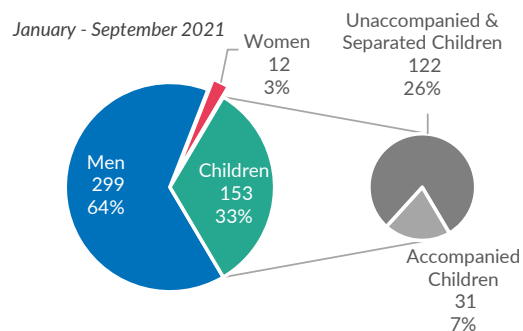

## Age and Gender Demographics

Between 1 January and 30 September, most sea arrivals to Malta were adult men (64%), followed by unaccompanied and separated children (26%), adult women (3%) and accompanied children (7%).

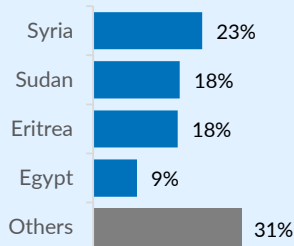

There have been 122 unaccompanied and separated children (UASC)\* arrivals in 2021.

\*Please note that this data is based on each individual's declared age on arrival, before any age assessment procedures have taken place.

### Sea Arrivals - Top 4 Nationalities

January - September 2021

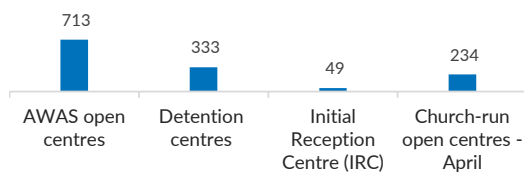

### Demographics - Countries of origin

From January to September 2021, 107 persons (23%) arrived from Syria, 85 persons (18%) arrived from Sudan and 83 persons (18%) arrived from Eritrea. 43 persons (9%) arrived from Egypt, while 146 (31%) arrived from other countries of origin.

### Population in Reception Centres

September 2021

Note: The IRC has both 'open' and 'closed' sections.

### UNHCR monitoring and activities

UNHCR visits open and closed centres to provide information on the asylum system, Dublin regulation, rights and obligations, and to refer persons of concern to appropriate services. UNHCR conducts child protection activities, detention monitoring and, through its implementing partners, provides legal aid and psycho-social support in centres.

Due to measures to combat COVID-19, since March 2020 UNHCR has strengthened its digital communications to provide information to persons of concern online and through WhatsApp. UNHCR and partner organisations have dedicated telephone helplines for refugees and asylum-seekers.

### Asylum Applications and Decisions

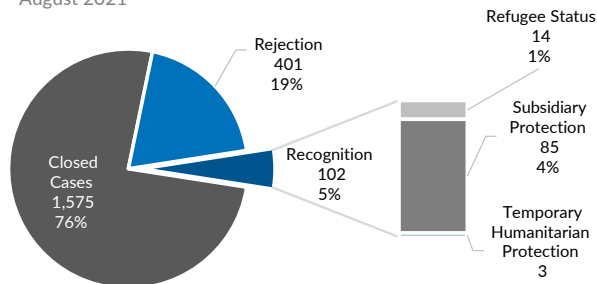

January - September 2021

In recent years the refugee population has been mainly composed of Libyan, Syrian and Somali refugees. Currently the rate of international protection (Refugee or Subsidiary Protection status) is 5% of total decisions.

There was a high number of 'Closed' cases, referring to applications that resulted in an administrative closure, Dublin closure, or applications that are explicitly withdrawn, implicitly withdrawn or inadmissible.
