

## Updated COVID-19 Measures

Source: Government of Malta

February 2022

### With effect from 21 February 2022:

- Quarantine period for **fully vaccinated primary contacts (who are not part of the same household)** will be reduced to **5 days**; if followed by a negative test result on the 5th day of quarantine.

### With effect from 7 March 2022:

- Quarantine for people testing positive for COVID-19 who have a valid vaccine certificate will be reduced to **7 days, if followed by a negative test on the 7th day of quarantine.**
- **No quarantine needed for fully vaccinated primary contacts.**
- **Fully vaccinated school children** can go back to school after five days of quarantine.
- Children who have two doses and are **primary contact will not need to quarantine.**

### With effect from 14 March 2022:

- No masks in public places.
- Masks will only be mandatory **inside** and when attending **mass events.**
