Successful solidarity #withrefugees on inclusion in higher education necessitates inputs from a variety of actors. Reflecting progress since the Global Refugee Forum in 2019, this event will examine innovative tools, contributions from governments and academics themselves that help ensure that displaced students, scholars and scientists are not left behind.

The event is hosted by the Global Academic Interdisciplinary Network (GAIN), an initiative launched at the 2019 Global Refugee Forum. GAIN is a global network involving universities, academic alliances, research institutions, UNHCR and other relevant stakeholders. Together these actors work to facilitate research, training and scholarship opportunities which result in specific deliverables to support of the objectives of the Global Compact on Refugees.

Event time

**Monday,
13 December 2021**

New York:	09:15-10:30
London:	14:15-15:30
