Methodology: Unearmarked funding is allocated and reallocated multiple times during the year to allow UNHCR to fund prioritised activities. This funding update includes an indicative allocation of funds so as to accurately represent the resources available for the situation. The contributions earmarked for the Ukraine Situation shown above are combined with an indicative allocation of the softly earmarked and unearmarked contributions listed below. This allocation respects different levels of earmarking. Adjustments relate to programme support costs and carry-over.

Notes:

1. The total requirements comprise of \$710 million for the Regional Refugee Response Plan (RRP) and \$537 million for the Humanitarian Response within Ukraine. The RRP presents needs and requirements until the end of December 2022, however the needs and requirements within Ukraine are until end of August 2022 because of the fluid nature of the crisis.

2. Contributions and expected contributions to the Ukraine Situation are shown by the earmarking modality as defined in the Grand Bargain.

3. Due to their earmarking at a related region, sub-region, country or theme, the other softly earmarked contributions listed are those which can potentially be used for the Ukraine Situation. Where a donor has contributed \$2 million or more, the total amount of the contribution is shown.

4. Contributed without restrictions on its use, unearmarked funding allows UNHCR critical flexibility in how best to reach refugees and other populations of concern who are in the greatest need and at the greatest risk. Where a donor has contributed \$10 million or more, the total amount of the contribution is shown.
