1.1 The Business Transformation Programme (BTP)

The Business Transformation Programme (BTP) is part of UNHCR’s ambitious reform agenda launched by the High Commissioner to make UNHCR more agile, efficient, inclusive, and collaborative. It was introduced in 2020 as the main initiative driving efficiency, by modernizing and streamlining our systems, tools and processes.

The BTP comprises six projects, tasked with transforming our financial, human, resources, programme, procurement/supply, partnerships, and external engagement management systems.

In the framework of this digital transformation, UNHCR is adopting different new systems to adjust its ways of working and significantly changing how the organization manages business relationships with commercial partners - with the ultimate goal of improving the life of refugees, stateless and other displaced persons.

Among the 6 digital solutions UNHCR is adopting, the most relevant to commercial partners is the new Oracle Cloud ERP integrated solution, which will replace the current Enterprise Resource Planning (ERP) system for finance-budget and supply management.

The new ERP will ensure better business relationship with UNHCR’s commercial partners as well as better integrated communication and business transactions through the use of a dedicated Supplier Portal for all commercial stakeholders wishing to maintain a business relationship with UNHCR.
1.2 Quick references to the Guide

The Supplier Portal guide is intended for individuals or companies who wish to participate in UNHCR’s negotiations managed through this portal or register as an authorized supplier to acknowledge and manage contract agreements via the portal. Login Link for Supplier Portal is https://supplier-portal.unhcr.org.

For quick reference, you can navigate directly to a specific topic by clicking on the relevant hyperlink:

- To create a profile and register as a supplier in the portal, please refer to How to Register a Supplier Profile.
- If you already have an account and wish to participate in a negotiation, please refer to How to Submit a Bid.
- To search for Negotiations and download negotiation documents with a registered user account please click here.
- If you already are a Spend Authorized supplier and wish to review Purchase Orders (PO), please click here.
- If you have an account, but have forgotten your password, please click here.
- If you are experiencing any technical difficulties with signing in, registration, or bid submission, please refer to the section on Helpdesk Support.

💡 IMPORTANT:
In the Cloud ERP system, “Negotiation” stands for solicitation/tender.
1.3 How to use the Guide

This guide is organized in several sections that correspond to different functions of the Supplier Portal such as registration, submitting bids, maintaining profile, etc.

The Table of Contents (TOC) provides a detailed overview of all the topics covered in this User Guide. It contains hyperlinks to the exact page of the sections in the document so the reader can navigate directly to the relevant section.

Each section starts with a brief overview of the content of that section with hyperlinks. Throughout the document, there are three types of hyperlinks:

- **Hyperlink buttons** that will take reader to the main TOC ( ), found at the top right corner of each page.
- **Hyperlinks** ( ) that take readers to the beginning of the current section, usually found at the bottom left corner like in this page.
- **Hyperlinked words** that take reader directly to a location of the document related to the text. For example, by clicking on the hyperlinked TOC here, the reader can go directly to the TOC page of this document.
1.4 What is Supplier Portal?

The Supplier Portal module is designed to facilitate Supplier interactions during negotiation process and later for contract management. The system aims to enhance the integrity and transparency of the procurement process and enables the streamlining of the processes: Suppliers can use online portal to view negotiation documents, submit their bids, communicate with procurement office, etc.

The Supplier Portal system addresses UNHCR's fundamental procurement values, such as fairness, integrity, transparency and accountability.

Some of the main benefits of the system are:
- **No late submissions are accepted:** The system will automatically reject any bid after the deadline.
- **Electronic sealed bids:** The system encrypts the bids submitted in the system and does not allow anyone to view any information provided before the bidding deadline.
- **Streamlines the bidding process:** Suppliers can register in the system, retrieve all information and negotiation documents, submit their bid online, edit it directly in the system, and receive automatic notifications once the evaluation is finalized and the contract is awarded.
- **Electronic submissions of Invoices:** The system enables suppliers to submit their own invoices and view payments, receipts and orders electronically.
- **Provides an audit trail:** As the Supplier Portal system records all activity in the system, it keeps an audit trail for increased accountability and transparency.
1.5 Who can use the Supplier Portal?

<table>

<tr>
<td><strong>Prospective Suppliers</strong> wishing to participate in a Negotiation can self-register in the Supplier Portal with a facilitated/light registration’s procedure.</td>
<td><strong>Prospective Suppliers</strong> awarded by UNHCR to become Spend-Authorized Suppliers will be contacted in order to provide the required information and documentation to be approved for business transactions with UNHCR. Previous UNHCR’s Spend-Authorized suppliers will receive notification by email to access and setup their new credentials in the Supplier Portal.</td>
</tr>
</tbody>
</table>

**IMPORTANT:**
If a prospective supplier won the negotiation, they will be awarded after the profile is spend authorized.
2. Register and manage supplier profile

- 2.1 Supplier registration overview
- 2.2 Enter Supplier profile
- 2.3 Confirm registration and create new password
- 2.4 Update Supplier profile
- 2.5 Manage user access
- 2.6 Setting profile preferences
- 2.7 Forgotten password
2.1 Supplier Registration Overview

The first time a **prospective supplier** enters the UNHCR Cloud ERP Supplier Portal, a one-time registration process is required. Suppliers only register once, and thereafter enter the Portal with their own User ID and password. **Companies with their own email domains need to make sure that unhcr.org and oracle.com are not blocked by their email firewalls.**

- **Visit Supplier Portal**
  - Click this [LINK](#) or enter from the [UNHCR WEBSITE](#).
  - Prepare all information and documentation before starting the registration process.

- **Register mandatory information**
  - Input mandatory information:
    - Company name as legally registered
    - Tax Organisation Type
    - Contact person details to maintain the account (email + telephone number)
    - Company address with valid Postal Code
    - Tax ID / Tax Registration Number

- **Submit**
  - Registration will be auto-approved for prospective suppliers

- **Check e-mail**
  - Check email account to create password and log-in to the system
2.1 Supplier Registration: Visit Supplier Portal

Click this [LINK](#) or enter from the [UNHCR WEBSITE](#)

If you are already registered in the system but do not remember your password, please do not register again.

Please click [here](#) to login in the system with your User ID (e-mail address) and the password. If you have forgotten your password, you need to click on the “Forgotten Password” link and create a new password. Please see [Instructions](#) on how to generate a new password if you forget it.

**Important:**
The UNHCR Supplier Portal is not the same as the UNGM (United Nations Global Marketplace) or the e-tender box. If you want to conduct business with UNHCR, you must first register as a supplier in the UNHCR Supplier Portal.

5.2 Frequently asked questions

Q: How will suppliers be registered in the system?
A: The suppliers can register through self-service registration in the Supplier Portal.

Q: Can suppliers apply directly via their supplier portal?
A: Yes, the supplier portal allows suppliers to apply directly.

Q: How can we register ourselves in rural areas where there is no accessible private 2G or 3G internet service for the public?
A: In such cases, the procurement focal point can assist for registration process wherein UNHCR will register them.

Q: Can suppliers participate in RFQ, ITB, and RFP processes through the supplier portal?
A: Yes, suppliers need to participate in these processes through the supplier portal.

Q: Will the supplier's payment depend on the INCOTERM or the receipt?
A: The procedure won't change much. INCOTERMS are determined as part of the purchase order, and payment is processed based on the receipt.

Q: Will centralizing supplier validation and approval result in delays?
A: Supplier management requires specialized review and centralizing this information.

Q: Will fiscal documentation be requested in tenders?
A: Suppliers will be required to upload fiscal documentation on the supplier portal as per specified in the negotiation requirements.
Q: Will suppliers be able to update their information in the portal?  
A: Yes, suppliers can update their information in the portal, but material changes require validation and approval by the central team.

Q: What happens if a supplier changes bank information during the generation of a purchase order?  
A: If the change request is approved before printing the purchase order PDF, it will be reflected; otherwise, the purchase order needs to be reprinted post-approval.

Q: How will supplier clarifications/questions during the negotiation period be handled?  
A: Suppliers can communicate with UNHCR through Supplier portal using Message button.

Q: Do suppliers have access to the ERP system for purchase order acknowledgment?  
A: Yes, you will receive notification and suppliers have access to the ERP system for purchase order acknowledgment through supplier portal.

Q: Is the Supplier portal environment just in English or it will provide an access in other UN languages?  
A: At the beginning the portal will be activated in English and slowly other languages will be added to the system.

Q: For suppliers who have been correctly migrated in the Cloud ERP. Will supplier need to also self-register to be able to receive negotiations or will we be notified about negotiations because we are already registered? And in case, how will we know how to have access to our portal account?  
A: Those who have been correctly migrated won’t have to self-register again. Suppliers will be able to participate in tenders, suppliers can go into the portal, and suppliers will have access to the available information for open negotiations. The contact information data (emails, telephone, etc) are paramount to be able to contact the suppliers and provide suppliers with guidelines to access your portal account with your credential (email) and then reset your own password.
Q: Is the Cloud ERP going to be connected to the (UN Global Marketplace) UNGM portal?
A: Not at the moment.

Q: What happens if the supplier name in the bank details is different from the beneficiary name?
A: The bank account should always be in the name of the beneficiary. We cannot make payments to third parties.

Q: Is it possible to save a registered supplier as a draft before submitting it for approval? How does the approval process work?
A: Yes, it is possible to save the registered supplier as a draft before submission for approval. The approval process involves HQ reviewing and approving all requests.

Q: Can supplier perform a check to see if a supplier already exists in the database before creating a new one, specifically checking if the company name is already registered?
A: Yes, the system includes a duplicate validation check that prevents the addition of a new supplier with the same email as an already registered supplier. Additionally, you can contact the procurement focal point and get your registered information. The registration process will undergo an approval process at HQ.

Q: Do suppliers need to fill up the vendor registration form?
A: Yes, the vendor registration form will still need to be filled out, but there will be a new format that will be delivered soon. The new format will provide updated information and requirements for the vendor registration process.

Q: How long does the approval process take after creating the supplier?
A: The specific duration of the approval process has not been specified yet. However, the processing time will depend on the accuracy and completeness of the mandatory details provided during the supplier registration.
Q: How will we know the city code when entering Supplier details?
A: For city codes, you can enter any name to refer to the city. The code will be reviewed by the Master Data Management team during the approval process. As for the country, if you enter the initial letters, the code will appear automatically, assisting with the selection of the correct country code.

Q: If the Swift code is not visible and IBAN is not used in some countries, what alternative options are available for entering bank account details?
A: In cases where the Swift code is not visible and IBAN is not applicable in certain countries, an alternative option is to enter the Account Number instead of IBAN. This allows for the inclusion of relevant bank account details specific to those countries during the supplier registration process.

Q: Is it mandatory for every supplier to have a DUNS number for registration?
A: No, having a DUNS number is not mandatory for all suppliers. It’s applicable for suppliers who were already assessed and scored by Dun & Bradstreet business credit profile in order to check the business credit scores and assess the company's financial health. If a supplier does have a DUNS number, the supplier can provide their TAX ID or TAX Registration number as an alternative identifier.

Q: If the supplier is a proprietor, should their tax ID be used during registration?
A: Yes, if the supplier is a proprietor, their tax ID should be used as the identifier during the registration process.

Q: Can we create a supplier with an address from a different country code?
A: Yes, it is possible to create a supplier with an address from a different country code. The system allows for multiple addresses within a supplier profile, and these addresses can be differentiated using address names.
Q: When selecting the country, will the bank information details displayed be specific to that country or are they the same for all countries?
A: The bank information details displayed will be specific to the selected country. For example, if you select Hungary, the system will show you banks, and branches located in Hungary. Similarly, if you select Afghanistan, you will only see banks and branches relevant to Afghanistan. The displayed bank information is country-specific and tailored to the banking options available in each respective country.

Q: Where can we add the Swift code?
A: The Swift code is associated with the setup of banks and branches within the system. You don’t have to provide it.
5.3 Glossary

Awarding: Awarding is the phase during a Procurement action in which based on the evaluation of the bids/proposals received (tender offers) an award of one or more relevant contracts is made. Usually at this stage the eligibility and evaluation of the proposals have been concluded, so it remains to choose the one that got the one(s) to be awarded with a contract.

Inspection: Inspection is the process by which goods are checked for quality, compliance with technical specifications, and accuracy. Types of Inspection include factory audit, pre-delivery inspection, loading inspection, post-delivery inspection, laboratory testing.

Inventory (INV): Inventory includes all stockable items.

Item: Items are products or materials with specific Item Attributes, e.g. a laptop of a certain model. Each item is assigned an ID which can be selected in transactions.

Last Mile: The last leg of a journey comprising the movement of goods to a final destination.

Low Value Procurement (LVP): Low Value Procurement - also referred to as Shopping - is the purchase of readily available off-the-shelf goods and simple services, for a cumulative value at or below the threshold for making use of an RFQ (threshold set at USD 4,000 for the same or similar items within a short period of time, usually 90 days (about 3 months) depending on the nature of the item concerned).

Purchase Order (PO): A Purchase Order is a contractual agreement with an external Supplier, an Individual Consultant or Contractor, or a CBI funding commitment. Purchase Orders are raised when you already know the details of the goods or services to be purchased, including the estimated costs, quantities, delivery schedules, and Chart of Accounts (CoA) coding. Purchase Orders generate a budgetary obligation.
**Receipt**: Receipt is the confirmation that goods or services were received in accordance with the specifications of the Purchase Order (PO). It serves as the basis for settling the Suppliers’ invoice.

**Scoring**: Scoring is a step in the Request for Proposal (RFP) process, which - as part of the evaluation process - covers the rating of each proposal submitted by the Bidders. A scoring method can also be used in RFQs and weighted ITBs to determine technical compliance with a set of requirements.

**Spend authorized supplier**: Suppliers who are ready to be awarded or receive payments and transaction from UNHCR.

**Trade Operation (TO)**: Trade Operations are used to capture Landed Cost charges associated with Purchase Order (PO) Receipts.
