

## Northwest Syria Flash Update #1

Response to Displacement from Lebanon to Syria

03 October 2024

As of 3 October, some **56 households** have reportedly arrived from Lebanon to north-west Syria following the escalation of hostilities.

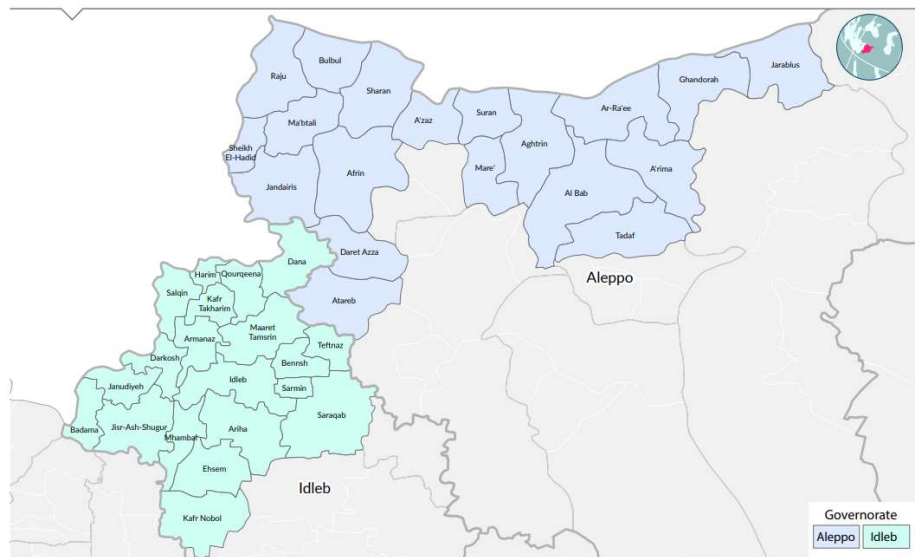

### UNHCR Response

UNHCR has mobilized community protection networks, outreach teams, and protection monitors to monitor new arrivals and provide support. Newcomers will be informed about available services at community centers and through outreach programs, with referrals to additional service providers as needed. UNHCR is prepared to distribute essential items, including 800 pre-positioned tents and 830 core-relief item kits, stored in partner warehouses in northwest Syria. This comes at a time of an observed increase in refugee returns to north-west Syria from Türkiye since June 2024.

### Overview of Developments

NORTH-WEST SYRIA

Following the escalation of hostilities in Lebanon on 23 September, the arrival of Syrians fleeing conflict to north-west Syria has remained relatively low, with approximately 56 households observed to date in Idlib and Aleppo. Most of these individuals have found shelter with relatives or in their own homes and have indicated they now intend to remain in north-west Syria. Their immediate needs are centered around securing basic necessities like food, water, and shelter. Some individuals have requested assistance with transportation to reach their intended destinations in other locations in the north-west. As of 3 October, there have been no reported arrivals of Lebanese nationals.
