France is a reliable donor and ally to UNHCR, consistently offering support to **address refugee needs in urgent humanitarian crises** around the world.

As one of UNHCR's top 5 donors in 2024, France stands out for its prompt and **flexible funding support**. In 2024, French contributions primarily targeted pressing situations in Ukraine, Sudan and neighbouring countries, Lebanon and Syria. It also encompassed critically underfunded operations in Bangladesh, Afghanistan, Chad and Ethiopia.
As a resettlement country, **France welcomes around 3000 refugees each year**, providing people with an opportunity to start a new life.

As one of the co-conveners of the 2023 Global Refugee Forum, France plays a pivotal role in mobilizing efforts and collaborates closely with UNHCR across various priority areas, including socio-economic inclusion, private sector engagement, climate change mitigation in displacement settings, and ensuring the protection and integration of refugee women and girls.
