UNHCR’s Mandate

Responding with life-saving support
safeguard the rights and well-being of people who have been forced to flee

Safeguarding fundamental human rights
ensure that everybody has the right to seek asylum and find safe refuge in another country

Building better futures
secure lasting solutions
For over 70 years, UNHCR has helped millions of people to restart their lives. They include refugees, returnees, stateless people, the internally displaced and asylum-seekers.
Statistics on Forced Displacement

108.4 million people worldwide were forcibly displaced

At the end of 2022 as a result of persecution, conflict, violence, human rights violations or events seriously disturbing public order.

This total represents an enormous number of people needing protection worldwide.

Procurement in UNHCR

To protect some of the world's most vulnerable people in so many different places and types of environment, UNHCR must purchase goods and services worldwide.

This might range from buying fleets of heavy duty vehicles needed in the most inaccessible parts of the African continent to purchasing needles and thread for a self-help project in Pakistan.
Procurement Principles

In line with the UN Financial Regulations and Rules, UNHCR’s procurement system is based on the following principles:

- Fairness, Integrity and Transparency (FIT)
- Effective International Competition
- Best Value For Money
- The Interest of the United Nations
The UN Supplier Code of Conduct

It sets forth what is expected of all suppliers with whom UNHCR does business.

Furthermore, Vendors are expected to demonstrate a commitment to the Ten Principles set out in the UN Global Compact that underlies the UNSCC.
## Tendering process

There are three types of solicitation documents issued by the UNHCR to fulfill a procurement requirement. While each of the documents referred below contain the information necessary to submit a suitable offer, they vary in accordance with the nature of the requirement and the estimated monetary value.

<table>
<thead>
<tr>
<th><strong>Request for Quotation (RFQ)</strong></th>
<th><strong>Request for Proposal (RFP)</strong></th>
<th><strong>Invitation to Bid (ITB)</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>An informal invitation to submit a quotation for requirements of relatively low monetary value. Prices and other commercial terms and conditions are requested, and an award is usually made to the lowest priced technically compliant offer.</td>
<td>A formal request to submit a proposal against requirements that have higher dollar value but are not fully definable at the time of solicitation and where the innovation and specific expertise of the proposer is sought to better meet the procurement requirement. Price is only one of the several factors comprising the evaluation criteria, which are determined before the RFP is released. The offer from a supplier is submitted in two sets of documents: a Technical offer and a Financial offer.</td>
<td>A formal invitation to submit a bid usually associated with the requirements that are clearly or concisely defined and have a monetary value above the RFQ threshold. Award recommendations are based on the lowest cost technically compliant offer.</td>

UNHCR carries out joint procurement activities (One UN)
To achieve this, we proactively engage with corporations and foundations eager to help drive change and find innovative solutions to refugee issues. UNHCR also endeavours to undertake environmentally responsible sourcing of goods and services.

Building on the philosophy and achievements of the UN Global Compact, UNHCR envisions a world in which the private sector plays a constructive role in finding durable solutions for people forced to flee their homes.
UNHCR does not purchase from companies engaged in the sale or manufacture, either directly or indirectly, of antipersonnel mines or any components produced primarily for the operation thereof. UNHCR does not purchase from companies engaged in any practice inconsistent with the rights set forth in Convention on the Rights of the Child.

Any unethical practice, including Sexual Exploitation and Abuse, is antithetical to the policies and principles of UNHCR. Particular reference is made to the UN Supplier Code of Conduct (UNSCC) which is mandatory for all UNHCR vendor.
Frame Agreements

The Role of Frame Agreements:

- Frame Agreement holder is selected through open tender
- Goods and services are purchased by UNHCR using FA
- Examples: core relief items, freight forwarding, IT equipment, light vehicles, inspection services, medical supplies
- Core relief items (CRIs) are: tents, kitchen sets, plastic tarpaulins, blankets and solar lantern
- CRIs are procured centrally by UNHCR HQ

Advantages for UNHCR:

- Shorter lead time
- Flexibility (quantities)
- Better quality control / supply security
- Not exclusive to single supplier (however: procurement principles apply)
- Binds suppliers to ex-stock deliveries and agreed quantities
- Competitive prices
Sustainability provisions

To provide international protection and humanitarian assistance to people forced to flee, UNHCR purchases, stores, transports, and distributes a wide range of goods through international and local markets.

However, this can have a detrimental impact on the environment. An initial evaluation indicates that core relief items collectively represent some 60% of UNHCR’s total greenhouse gas emissions.

Considering this, we are undertaking major initiatives to improve the sustainability of our end-to-end supply chain, including planning, sourcing, contents, manufacturing processes, procurement, delivery and lifecycle management of core relief items and other goods.

OUR TARGETS BY 2025

Reduce by 20% the aggregate average greenhouse gas emissions from the production and delivery of CRIs
Increase by 20% the biodegradable or recycled content of core relief items & packaging.
Reduce by 10% the CO2 emissions from international freight
Reduce by 25% the average duration of stock on hand
Ensure supply waste management services in 70 country operations
