KEY HIGHLIGHTS

- Meeting its Grand Bargain commitment, UNHCR delivered some USD 700 million to 8.5 million people in 100 countries.
- UNHCR responded rapidly and effectively to COVID, scaling up and/or launching cash in 65 countries.
- 95% of the cash was unrestricted, providing the choice to the beneficiaries.
- UNHCR largest operations delivering cash assistance were: Lebanon, Greece, Jordan, Iraq, Yemen, Egypt, Turkey, Afghanistan, Mexico, and Somalia.
- Refugees accessed digital payments in 47 UNHCR operations; a pathway to financial inclusion.
- The UN Common Cash Statement resulted in common transfer mechanisms in +24 countries.
- A network of 100 cash experts exist in UNHCR operations and across regions.
- UNHCR has trained +5,000 staff and launched an online cash learning toolkit and a ToT.
- +60 countries conducted post-distribution monitoring using UNHCR’s corporate tool.
- New guidance on market assessment, COVID, CBI tool repository, child protection and health, and researched the impact of cash on the environment and child protection.

1 Including arrangements made in 2019
CASH AND COVID

The COVID-19 response in 2020 demonstrated that UNHCR is fit for purpose to deliver cash at scale and rapidly. In collaboration with governments and other partners, more than 65 UNHCR operations launched new cash initiatives and/or expanded existing cash assistance. The operations adapted existing cash assistance, introducing new approaches and technology, designing new cash grants and targeting criteria to assist new vulnerable populations, developing exit strategies, increasing the use of digital payments, adjusting systems and complaints and feedback mechanisms and, where appropriate, aligning cash assistance with the government social assistance. Good practices are consolidated from 24 operations in the UNHCR Cash Assistance and COVID 19: Emerging Field Practices I and II. UNHCR issued several cash guidance for the COVID response including for the different sectors such as shelter and education.

A PDM analysis during COVID highlights that a majority of cash recipients indicated a high satisfaction with cash assistance, that they could find what they needed in the market and that cash has helped to mitigate some of the negative impacts of COVID-19. However, the results paint a bleak picture of the well-being and protection of refugees and others of concern with 74% of them meeting only half or less of their basic needs.

CASH - A PATHWAY TO INCLUSION AND PROTECTION

In 2016, digital payments to refugees, including access to bank and or mobile money, was limited to only a few countries in the operations where UNHCR provides cash assistance. In 2020, as a result of the cash institutionalization process, 47 countries have managed to negotiate access of which 32% has set up mobile money. See Digital payments to refugees - A pathway towards financial inclusion, launched in December 2020. UNHCR also launched the Strengthening Cash and Protection Initiative, including further internal capacity-building, piloting and good practices on cash and protection.

AN ACCOUNTABLE APPROACH

14 operations1 are now using CashAssist – UNHCR’s Cash Management System - to manage lists, payments, tracking and reconciliation for cash assistance. Some 20 operations were trained on its use and many are planned for roll-out early 2021, moving closer to the target of 70 operations using CashAssist by 2021. UNICEF will start using the system in 2021 building on joint development and adjustments in 2020 and a joint mission to Jordan.

KEY GUIDANCE AND RESEARCH

- Joint UNHCR-NRC Multi-Sector Market Assessment (MSMA) Toolkit;
- CBI Toolkit; Guidance on cash and health child protection, and research on cash and environment along with an Environment Checklist;
- Summary of cash evaluations in Jordan, Rwanda and Greece;
- Review of the impact of cash on child protection in Jordan, Lebanon and Egypt; Digital payments to refugees- A pathway towards financial inclusion;
- A WFP/ UNHCR toolkit from the Mitigating the Risks of Abuse of Power project; a Procurement Toolkit;
- and a Risk Management Toolkit for Cash Assistance.
