**Rooms A-B-C**

UNHCR has developed a cross cutting digital transformation strategy in consultation with operations, partners and the communities we serve. During the session, we will present the strategy and outline some of the key challenges that UNHCR is facing, how they will be addressed and how our partners can help bring about transformative change to the organization.

A link to the full strategy will be circulated to attendants after the event. To ensure we have all participants email addresses for circulation please [register your interest](#).

The side event will be in-person attendance only, with interpretation in English and French.

Sandwiches and light refreshments will be served outside of the room
