**Standing Committee
Eighty-sixth meeting**

Update on budgets and funding (2022 and 2023)*Summary*

In October 2021, at its seventy-second plenary session, the Executive Committee approved an original annual budget of \$8,993.7 million for 2022.

In 2022, four supplementary budgets amounting to a combined total of \$1,720.3 million were established in support of the Afghanistan, Cameroon, Pakistan and Ukraine situations. They bring the total final budget for 2022 to \$10,714.0 million as of 31 December 2022.

The original budget for 2023 as approved by the Executive Committee at its seventy-third plenary session in October 2022 amounted to \$10,211.3 million. Two supplementary budgets have since been established for the total amount of \$305.8 million in support of the Pakistan and Ukraine situations. The budget for the Iraq operation was reduced by \$100.0 million in order to align the operational footprint of UNHCR with the United Nations transition strategy in the country. The total current budget for 2023 stands at \$10,417.1 million.

Pending the annual closure of the accounts for 2022, the provisional total funds available for 2022 amounted to \$6,130.6 million, while provisional expenditure stands at \$5,599.3 million. When comparing the final annual budget for 2022 to the provisional amount of funds available, the funding gap amounts to \$4,583.4 million, or 42.8 per cent.

A draft decision on budgets and funding for 2022 and 2023 is provided in annex IX.

I. Introduction

1. This document provides a preliminary update on the 2022 budget.¹ As the closure of accounts had not yet been completed at the time of writing, all year-end figures for 2022 are provisional. This document also provides an overview of the estimated budget requirements for 2023 as of 31 January 2023.

- The original and final annual budget and provisional expenditure for 2022 are summarized in annex I.
- Annex II(a) and II(b) show transfers from the operational reserve for 2022 and 2023.
- Annexes III(a) and III(b) provide an overview of the supplementary budgets by situation, region and impact areas for 2022 and 2023.
- Annex IV shows overall contributions recorded for 2022.
- Annex V gives a breakdown by country of 2022 contributions from non-governmental organizations, foundations, and private donors.
- Annex VI provides the list of unearmarked and softly earmarked voluntary contributions in 2022.
- Annex VII shows the original and current annual budgets for 2023 as of 31 January 2023.
- Annex VIII shows the latest provisional (mid-2022) statistics on persons of concern to UNHCR by country/territory of asylum.
- Annex IX provides the draft decision on budgets and funding for 2022 and 2023.

2. The final annual budget, funding, and expenditure figures for 2022, which will be available following the closure of accounts on 31 March 2023, will be reported at the eighty-seventh meeting of the Standing Committee in June 2023.

II. Budgets and funding for 2022

Total budget

3. In October 2021, at its seventy-second session, the Executive Committee approved an original annual budget of \$8,993.7 million for 2022.² The final 2022 budget of \$10,714.0 million represents the sum of the approved original budget of \$8,993.7 million and the supplementary budgets of a total amount of \$1,720.3 million, established by the High Commissioner in the course of 2022, in accordance with article 7.4³ of the UNHCR financial rules and regulations. Details of the final 2022 budget are provided in annex I.

Supplementary budgets

4. At the eighty-fifth meeting of the Standing Committee in September 2022, three supplementary budgets totalling \$1,710.3 million were approved, comprising \$1,417.6 million in support for the Ukraine situation; \$233.9 million for the Afghanistan situation in response to the critical humanitarian needs of internally displaced persons; \$59.6 million to enable the scale up of the emergency response in Cameroon and Chad, as part of the Cameroon situation. Subsequently, a supplementary budget of \$10.0 million was issued in response to the monsoon floods in Pakistan. This brings the total final supplementary budgets to \$1,720.3 million as of 31 December 2022. An overview of supplementary budgets by situation is provided in table II.1 below. A more detailed

¹ Figures are presented in millions of United States dollars. The totals in the tables of this document may not add up due to rounding.

² See A/AC.96/1213/Rev.1.

³ See A/AC.96/503/Rev.11.

breakdown of the 2022 supplementary budgets by situation, region and impact areas is shown in annex III(a).

Table II.1

2022 supplementary budgets as of 31 December 2022

(In millions of United States dollars)

	<i>As at 31 July 2022^a</i>	<i>Changes/additions</i>	<i>Final as at 31 December 2022</i>
Afghanistan situation	233.9	–	233.9
Cameroon situation	59.6	–	59.6
Pakistan situation	–	10.0	10.0
Ukraine situation	1,416.8	–	1,416.8
Total	1,710.3	10.0	1,720.3

Notes

^a Reported in document EC/73/SC/CRP.23 of 6 September 2022.

Preliminary programme assessment

5. In 2022, the number of forcibly displaced rose to over 103 million people. UNHCR responded to high-risk and complex emergencies in 32 countries, with 52 internal emergency declarations, including 35 that were newly declared. The deployment of some 500 experts provided timely support to several operations, including in Ethiopia, Somalia, South Sudan, Ukraine and neighbouring countries. Against this backdrop, UNHCR strengthened its efforts in modernizing its information technology systems, processes and policies, adapting them to the dynamic environment in which the Office operates.

6. In the context of the armed conflict in Ukraine, the Office provided swift assistance to people in need, including the targeted distribution of shelter and core relief items, access to health care, initiatives to prevent or protect against gender-based violence, nutrition interventions, access to water, sanitation and hygiene, as well as protection services. The bulk of the provisional expenditure of \$857.4 million for the Ukraine situation was under impact areas 2 (Respond) and 1 (Protect) at 94.1 per cent and 4.4 per cent respectively, mostly for multi-purpose cash assistance and the distribution of non-food items.

Preliminary year-end financial analysis

7. The impact area distribution of the final budget for 2022 of \$10,714.0 million is shown in table II.2 below.

Table II.2

2022 final annual budget – as of 31 December 2022

(In millions of US dollars)

	<i>Requirements</i>	<i>Percentage over total</i>
1. Protect (Attaining favourable protection environments)	2,027.7	19%
2. Respond (Realizing basic rights in safe environments)	5,765.5	54%
3. Empower (Empowering communities and achieving gender equality)	1,429.1	13%
4. Solve (Securing solutions)	1,052.3	10%
Subtotal programmed activities	10,274.5	96%
Operational reserve	427.5	4%
Junior Professional Officer programme	12.0	0%
Total	10,714.0	100%

8. The final budget of \$10,714.0 million for 2022 comprises programmed activities of \$10,274.5 million; an operational reserve of \$427.5 million and \$12.0 million for Junior Professional Officers as also shown in annex 1.

9. The preliminary financial analysis for 2022 based on provisional figures, pending the financial closure of accounts, is described below and summarized in table II.3.

10. The provisional amount of funds available for the period ending 31 December 2022 stood at \$6,130.6 million. This amount comprised:

- \$235.3 million carried over from the budget year 2021;
- \$5,835.8 million in voluntary contributions recorded in 2022, plus \$217.7 million recorded in prior years for activities with implementation in 2022, minus \$231.5 million recorded in 2022 for activities with implementation in future years;
- \$42.2 million allotted to UNHCR from the United Nations regular budget;
- \$31.0 million currently estimated in other funds available and adjustments, mainly prior-year cancellations and adjustments, and miscellaneous income.

11. When compared to the \$5,153.3 million available in 2021, the provisional amount of funds available in 2022 increased by \$977.3 million, or 18.9 per cent.

12. Comparing the total funds available of \$6,130.6 million for 2022 with the total final needs of \$10,714.0 million for the same year, the funding gap amounts to \$4,583.4 million, or 42.8 per cent of the total final needs.

13. Provisional expenditure amounted to \$5,599.3 million, a record high for UNHCR. This is \$681.3 million or approximately 13.9 per cent more than the \$4,918.0 million expenditure in 2021.

14. The carry-over into 2023 is projected to be \$531.3 million, consisting only of funds earmarked to specific operations.

III. Overview of 2023

Total requirements

15. The original annual budget for 2023 approved by the Executive Committee at its seventy-third plenary session in October 2022, was \$ 10,211.3 million.⁴

Supplementary budgets

16. As of 31 January, the cut-off date for this report, the High Commissioner has established two supplementary budgets for 2023 amounting to \$305.8 million: \$250.0 million for the Ukraine situation and \$55.8 million for the Pakistan flood situation. This brings the total current budget for 2023 to \$10,417.1 million. A breakdown of 2023 supplementary budgets by situation, region and impact area are shown in annex III(b).

Budget reduction

17. The 2023 annual budget for Iraq was \$339.9 million in the original budget. This amount was reduced by \$100.0 million to \$239.9 million, reflecting the alignment of the UNHCR programme with the United Nations Sustainable Development Cooperation Framework, with an increased focus on inclusion in development interventions and national planning. Over the coming years, UNHCR will increase its support towards strengthening the capacities of public institutions to deliver relevant services.

Impact areas

18. The 2023 original and current budget are presented in Table III.1 below by impact area. It shows the net effect of the two supplementary budgets, the budget reduction in the Iraq operation, as well as internal transfers and adjustments made by the High Commissioner in accordance with financial rule 208.2.⁵ As a result of these adjustments, there has been a \$160.8 million or 6.6 per cent increase in the budget allocated to impact area 1, Attaining favourable protection environments. Detailed figures for the original and current budget for 2023 are provided in annex VII.

Table III.1

2023 original and current budgets by impact area – as of 31 January 2023

(In millions of United States dollars)

	2023 Budget			
	Original	Current	Variance	Variance (%)
1. Protect (Attaining favourable protection environments)	2,429.4	2,590.2	160.8	6.6%
2. Respond (Realizing basic rights in safe environments)	4,815.1	4,816.6	1.5	0%
3. Empower (Empowering communities and achieving gender equality)	1,338.6	1,355.9	17.4	1.3%
4. Solve (Securing solutions)	1,130.5	1,156.7	26.2	2.3%
Subtotal programmed activities	9,713.6	9,919.4	205.8	2%
Operational reserve	485.7	485.7	0.0	0%
Junior Professional Officer programme	12.0	12.0	0.0	0%
Total	10,211.3	10,417.1	205.8	2%

⁴ See A/AC.96/1224.

⁵ See A/AC.96/503/Rev.12.

19. The response of Member States at the Ad hoc Committee of the General Assembly for the Announcement of Voluntary Contributions to the High Commissioner's Programme (Pledging Conference), held in December 2022, confirmed a sustained commitment to supporting the vital programmes of UNHCR. Initial pledges for 2023 reached \$1,135 million. Although this amount does not cover the entirety of the assessed needs of persons of concern to UNHCR, it enables the Office to plan and continue operations that provide life-saving assistance and protection without interruption. Donors are encouraged to continue to respond generously to the High Commissioner's appeal for resources to meet the requirements for 2023, including through unearmarked funds.

Notes

The data are generally provided by governments based on their own definitions and methods of data collection.

¹ Country or territory of asylum or residence.

² Refugees include individuals recognized under the 1951 Convention relating to the Status of Refugees, its 1967 Protocol, the 1969 Organization of African Unity Convention Governing the Specific Aspects of Refugee Problems in Africa, the refugee definition contained in the 1984 Cartagena Declaration on Refugees as incorporated into national laws, those recognized in accordance with the UNHCR Statute, individuals granted complementary forms of protection, and those enjoying temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.

³ This category is descriptive in nature and includes groups of people who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Asylum-seekers (with pending cases) are individuals who have sought international protection and whose claims for refugee status have not yet been determined. Those covered in this table refer to claimants whose individual applications were pending at the end of 2020, irrespective of when those claims may have been lodged.

⁵ People who are outside their country or territory of origin, typically because they have been forcibly displaced across international borders, who have not been reported under other categories (asylum-seekers, refugees, people in refugee-like situations) but who likely need international protection, including protection against forced return, as well as access to basic services on a temporary or longer-term basis.

⁶ Refugees who have returned to their place of origin during 2020. Source: country of origin and asylum.

⁷ Internally displaced persons are persons or groups of persons who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of, or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized State border. For the purposes of UNHCR statistics, this population includes only conflict-generated internally displaced persons to whom the Office extends protection and/or assistance.

⁸ Internally displaced persons of concern to UNHCR who have returned to their place of origin during 2020.

⁹ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. The figure reported includes stateless persons who are also refugees or asylum-seekers from Myanmar, internally displaced persons in Myanmar, or others of concern to UNHCR. The UNHCR statistical reporting generally follows a methodology that reports on one legal status for each person of concern only. However, due to the extraordinary size of the displaced stateless population from Myanmar, UNHCR considers it important to reflect the dual status that this population group possesses. Additional stateless refugees, asylum-seekers and internally displaced persons will be reported on as UNHCR continues to review and improve its reporting on stateless persons with a dual status.

¹⁰ Refers to individuals who do not necessarily fall directly into any of these groups above but to whom UNHCR has extended its protection and/or assistance services, based on humanitarian or other special grounds. In 2021, this excludes host community that are assisted by UNHCR, who are now reported separately.

¹¹ From various sources such as civil status offices, health institutions, schools, municipal child protection units and social services, UNHCR estimates the number of people with undetermined nationality (at risk of statelessness).

¹² According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps. Statistical data relating to refugees are entirely for humanitarian purposes. The total number of persons in need of humanitarian assistance services is estimated to be far higher than this figure.

¹³ The methodology for estimating the number of refugees in Australia is under review and subject to adjustment in future reports. The asylum-seeker figure is based on the number of applications lodged for protection visas.

¹⁴ Data is as of end-2021.

¹⁵ By mid-2022, there were 234 Ukrainian nationals, 73 of whom were protected, a further 73 under temporary residence on humanitarian grounds and 161 with non-visa stay.

¹⁶ No official data on the actual number of refugees residing in Bulgaria is available. According to estimates, between 1,000 and 2,000 refugees and humanitarian status holders remain in the country. It is expected that the 2021 National Census, which will include for the first-time refugee and stateless populations, will provide more accurate data by end of 2022.

Notes

¹⁷ The data on the number of refugees is provided by the Government in the mid-2022 statistics; previously UNHCR estimated these statistics. The statistics on asylum-seekers (new applications, re-opened/repeat applications and/or appeal application) and refugees individually recognized in Canada include persons who had their claim assessed before the Refugee Protection Division and the Refugee Appeal Division of the Immigration Refugee Board as well as by the Department of Immigration, Refugees and Citizenship Canada through a Pre-Removal Risk Assessment.

¹⁸ The number of other people in need of international protection is estimated from the Refugee and Migrant Response Plan.

¹⁹ The Indo-Chinese population in China is no longer considered as refugees under UNHCR mandate and removed from UNHCR statistical report since June 2022, because they have full access to public services and enjoy the same rights as nationals.

²⁰ The National Victims Registry of Colombia contains the historical accumulated figure of the number of victims of displacement, which continues to increase given that victims continue to be registered in the country. Thus, the total number of people recognized as victims of displacement (more than 8.2 million), includes the number of internally displaced persons who are subject to attention and/or reparation, i.e. those who meet the requirements to access the measures of attention and reparation established in Colombian Law 1448 (6.7 million). The number of victims of displacement who are deceased, or internally displaced persons who were victims of homicide or forced disappearance, and other victims who, for various reasons, cannot effectively access these measures, are identified as not being subject to attention or reparation and therefore not included in the figure of 6.7 million. The figure is constantly updated, considering that by legal definition, victims have up to two years to make their declaration and be included in the registry system. See the summary: <https://www.unidadvictimas.gov.co/es/registro-unico-de-victimas-ruv/37394>.

²¹ This includes 65,200 applications in Costa Rica whereby Nicaraguans started their applications during the first six months of this year by obtaining an appointment to formalize their asylum claim. Of these, 38,800 claims were formalized, 12,700 remained to be formalized (i.e. individuals with an appointment to complete the application procedure) and 13,700 appointments were otherwise closed.

²² The statelessness figure is based on a 2019 mapping study jointly conducted by the Government and UNHCR. On 30 June 2022, the cessation clause for Ivorian refugees recommended by UNHCR came into effect.

²³ The 2014 ministerial declaration that offered *prima facie* refugee status to persons fleeing generalized violence from Central African Republic from January 2013 onwards is no longer applicable. As such, all refugees are assessed on an individual basis by the National Commission for Refugees.

²⁴ UNHCR is currently working with the authorities and other actors to determine the size of the population that found an effective nationality solution under Law 169-14. Since the adoption of Law 169-14 in May 2014, important steps have been taken by the Dominican Republic to confirm Dominican nationality through the validation of birth certificates of individuals born in the country to two migrant parents before 2007. According to information shared by the Dominican delegation during the 2019 High-Level Segment on Statelessness, approximately 48 per cent of the total Group A population of 61,049 persons had been authorized by the National Electoral Board to request their nationality documentation. Additionally, as of December 2019, over 1,700 Group B persons (900 of which were children) had submitted applications for naturalization to the Ministry of Interior and of the Police. However, no naturalization decisions concerning this population had been issued by June 2022.

²⁵ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

²⁶ There are indications that a potentially sizable population of non-displaced stateless persons exists for whom no data is available.

²⁷ This includes around 800,000 refugees and 40,700 UNHCR pre-registered new arrivals, reported as refugee-like. Based on information received from the Government in October 2020, the Islamic Republic of Iran hosts 800,000 refugees, of which 780,000 are Afghan Amayesh cardholders and 20,000 are Iraqi Hoviat cardholders. These cards effectively offer refugee status to their holders.

²⁸ Pending a more accurate study into statelessness in Iraq, the figure is an estimate based on various sources.

²⁹ Figures are UNHCR estimates. The published data refers to end-2021.

³⁰ The refugee population in Jordan includes 34,000 Iraqis registered with UNHCR. The Government of Jordan estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

³¹ With respect to persons under the UNHCR statelessness mandate, this figure includes persons of concern covered by two separate Latvian laws. 164 persons fall under the Republic of Latvia's Law on Stateless Persons on 17 February 2004. 195,190 of the persons fall under Latvia's 25 April 1995 Law on the Status of those Former Union of Soviet Socialist Republics (USSR) citizens who are not citizens of Latvia or any other State ("non-citizens"). In the specific context of Latvia, the "non-citizens" enjoy the right to reside in Latvia *ex lege* and a set of rights and obligations generally beyond the rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, including protection from removal, and as such the "non-citizens" may currently be considered persons to whom the Convention does not apply in accordance with Article 1.2(ii).

³² The total stateless population in Malaysia includes 9,040 non-displaced stateless persons who may be entitled to Malaysian nationality under the law. This number of non-displaced stateless persons is based on a registration and community legal assistance programme undertaken in West Malaysia by a local non-governmental organization, with technical support from UNHCR.

³³ Data is as of end-2021.

³⁴ The estimated figure of persons of concern under the statelessness mandate relates to stateless persons of Rohingya ethnicity in Rakhine State and also includes stateless internally displaced persons in Myanmar. The number of persons of undetermined nationality residing in other states or regions in Myanmar is not currently available. The number of stateless persons remaining in Rakhine State following violence in 2016 and 2017 and large-scale departures to Bangladesh is based on detailed estimates for each village tract made by UNHCR, other United Nations agencies and non-governmental organizations in early 2018, which concluded that between 532,000 to 600,000 Rohingya remained in Rakhine State (including an estimated 140,886 of those Rohingya who have been internally displaced). For the purposes of this report, the higher range of this estimate has been used.

³⁵ Various studies estimate that a significant number of individuals originally from Nepal lack citizenship certificates. While these individuals originally from Nepal are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

³⁶ The number of refugees is based on the data received from the government as of start-2022. Previously, UNHCR estimated the refugee population.

³⁷ The 1.5 million refugees includes around 1,252,800 registered refugees, around 135,700 unregistered members of registered families who were being verified at the time of reporting and were recorded through the documentation renewal and information verification exercise, and around 117,500 Afghans who arrived in the country on or after 1 January 2021.

³⁸ The updated figure is based on improved information concerning persons of Indonesian descent who have acquired nationality.

³⁹ Data is as of end-2021.

⁴⁰ Data on stateless and persons with undetermined nationality were provided by different authorities and have different cut-off dates: while data on stateless are updated as of 30 June, data on persons with undetermined nationality are as of end of January 2022.

⁴¹ This figure presents an estimate of persons with undetermined nationality/at risk of statelessness, based on a survey conducted by the Directorate General of Immigration and Emigration in 2010, which found approximately 9,500 persons to be at risk of statelessness. Efforts are under way to conduct a survey that will provide an updated and reliable statistics in 2022.

⁴² UNHCR is verifying the number of stateless persons with the Government of Saudi Arabia. Also, only those asylum-seekers facing acute or imminent protection risks are registered by UNHCR. In addition, there are some 13,400 other asylum-seekers who were individually assessed, counselled and advised to inform UNHCR of any changes in their situation, which would justify a decision to register them.

⁴³ According to some reports, many stateless persons have been naturalized since 2011, but no official figures are yet confirmed.

⁴⁴ The total statelessness figure includes 566,700 stateless persons reported by the Royal Thai Government and registered with the national civil registration system as of mid-2022.

⁴⁵ In the absence of official data, the figure reported refers to stateless persons and persons with undetermined nationality identified by UNHCR partner organizations in Turkmenistan. The increase in the reported figure is due to the identification of new people in stateless situations.

⁴⁶ The figure represents a rudimentary estimate of *in situ* stateless persons. These estimates were provided by representatives from these unrecognized communities. The estimated figures have not been verified or confirmed by the Government of Uganda and UNHCR, and UNHCR is planning to support government efforts to gather official statistics on stateless persons and persons of undetermined nationality in Uganda.

⁴⁷ UNHCR continues to report on the 2,345 refugees, 1,325 asylum-seekers and 36,459 stateless people until their status and whereabouts can be ascertained. The internally displaced persons and others of concern figures do not include affected communities, who are not displaced, some of whom were targeted for assistance by UNHCR and partners. While some data on refugees' and internally displaced persons' movements back to their country/place of origin is available, with the fluid security situation in Ukraine, it is not possible to determine if people who have returned have remained.

⁴⁸ The United Kingdom's stateless figures show the number of stateless individuals recognized through the United Kingdom's stateless determination procedure since it began in 2013. In previous years, this figure has been calculated by adding all grants of stateless leave. This resulted in unavoidable double counting for stateless individuals who were applying for further statelessness leave after the expiry of their initial grant of leave. The United Kingdom Government has now

Notes

provided data for initial and subsequent grants. The subsequent grants have therefore been removed from the previous cumulative figure between 2013 and 2018. Since 2019, the cumulative figure now only includes initial grants of leave following individuals' recognition as stateless. At the end of 2021, the total number of individuals recognized under the United Kingdom's statelessness determination procedure is 293. UNHCR further provides the number of asylum-seekers and refugees whose nationality has been recorded as "stateless" as part of the asylum process. For this group, there has been no formal determination that they are stateless.

⁴⁹The 2022 mid-year statelessness figure refers to stateless persons with permanent residence in Uzbekistan officially reported by the Government of Uzbekistan to UNHCR as of 30 June 2022. Information on other categories of statelessness is unavailable.

⁵⁰A study is being pursued to provide a revised estimate of the statelessness figure.

Annex IX

Draft decision on budgets and funding for 2022 and 2023

The Standing Committee,

Recalling the Executive Committee's decisions, at its seventy-third session on administrative, financial and programme matters (A/77/12/Add.1, para. 13(c)) as well as its discussions under the programme budgets and funding item at the eighty-fifth meeting of the Standing Committee in September 2022,

Reaffirming the importance of greater responsibility-sharing in solidarity with countries hosting refugees,

Recalls that the Executive Committee, at its seventy-second session, approved original programmes and budgets for regional programmes, global programmes and headquarters under the UNHCR 2022 annual programme budget, amounting to \$8,993.7 million,

Notes that the final 2022 supplementary budgets amounted to \$1,720.3 million for programmes benefiting the UNHCR programmes and projects,

Takes note of the increase in the UNHCR annual budget for 2022 to a final total of \$10,714.0 million, representing the sum of the original budget of \$8,993.7 million and the final supplementary budgets of \$1,720.3 million,

Recalls that the Executive Committee, at its seventy-third session in October 2022, approved original programmes and budgets for regional programmes, global programmes and headquarters under the UNHCR 2023 annual programme budget, amounting to \$10,211.3 million (A/AC.96/1224),

Takes note of the increase in the UNHCR annual budget for 2023 at a current total of \$10,417.1 million as of 31 January 2023, representing the sum of the original budget of \$10,211.3 million, supplementary budgets of \$305.8 million and a budget reduction of \$100.0 million,

Recognizes that emergencies and unforeseen activities unfolding in 2023 may result in the need for additional or expanded supplementary budgets and that additional resources, over and above those for existing budgets, would be needed to meet such needs, and

Urges member States to continue to respond generously, in the spirit of solidarity and in a timely manner, to the High Commissioner's appeal for resources to meet in full the annual budget for 2023.
