On 9 November, the JFO headquarters reported that, from 10 November, all EECPs would resume their work after a temporary suspension due to the worsened epidemiological situation, including the new EECPs in Luhanska Oblast: Shchastia and Zolote. However, as a result of restrictions on the NGCA side, Novotroitske EECP in Donetsk Oblast and Stanytsia Luhanska in Luhansk Oblast remain the only EECPs where crossing is possible.

On November 10, two new (both vehicular and pedestrian) EECPs were opened in the Luhanska Oblast on the GCA side. One administrative service centre, police station, pharmacy, bank, post office, a mother and child room and different shops are available at the EECP Shchastia. As for Zolote EECP, the road between the EECP and Severodonetsk has been reconstructed.

At Zolote EECP and at Shchastia EECP, about ten people were allowed to pass in the direction of the NGCA side, since their opening. However, all people who tried to cross the contact line towards the NGCA side were not admitted by the NGCA side and had to return to GCA, where SGBS requested them to install the "Act at home" app to track their self-isolation.

During the month of November, 5,508 vulnerable elderly persons were provided with transport support at Stanytsia Luhanska EECP by the NGO "Proliska" e-vehicle.

The findings of the monitoring should not be directly extrapolated to the entire population.

**TOTAL**

- **424** Individuals surveyed by R2P in November
- **58%** of respondents are 60+
- **66%** women
- **34%** men

### CURRENT PLACE OF RESIDENCE

- **22%** within 0-20 km
- **51%** >20 km
- **18%** not specified

- **2%** of respondents stated that they reside equally in GCA and NGCA

### MOST FREQUENT REASONS FOR CROSSING

- **Visiting relatives**: remains the main reason for crossing in both directions.
- Pension, social payment and cash withdrawal are most prevalent among people crossing from the NGCA side.

**By residence**

- **Visiting relatives**: 61%
- **Issues with pension/social payments**: 33%
- **Withdrawing cash**: 29%
- **Funeral/visiting a grave**: 7%
- **Issues with documents**: 12%
- **Checking on property**: 7%
- **Medical treatment**: 5%
- **Work**: 2%

**By age group**

- **18-34**: 35%
- **35-59**: 58%
- **60+**: 7%

**UNHCR and the NGO Right to Protection (R2P) are grateful for the generous support provided by donors, including the European Union’s Civil Protection and Humanitarian Aid Operations (ECHO); the Governments of Canada, Denmark, Estonia, Finland, France, Germany, Italy, Japan, Republic of Korea, Lithuania, Luxembourg, the Netherlands, Norway, Sweden, Switzerland, the United Kingdom (DFID), the United States of America (PRM) as well as private citizens who are contributing funds through different UNHCR private associations such as España con ACNUR of Spain and the UNO Flüchtlingshilfe of Germany.**
In November, about 1,084 people were authorized to cross to the GCA at the Novotroitske EECP and about 494 people crossed the contact line to NGCA. Novotroitske EECP remained the only EECP in Donetsk Oblast where it was possible to cross the contact line based on lists established by de-facto authorities in NGCA. The passage of people was conducted every Monday and Friday. The process of crossing was the same as in the previous month: people need to be placed on a list, compiled by de-facto authorities in NGCA. It entails a complex procedure of document submission.

People who did not have the ability to install the app “Act at home” had to go to the observation wards in Hostre settlement in Donetsk oblast. When interviewed by R2P at Novotroitske EECP in November, these people did not raise any concerns about conditions in the observation wards. In these wards people had the opportunity to pass a free COVID-test. If the test was negative, they were released from observation. A mobile ambulance team from Selidovo arrives only once a week to collect material for the COVID-test.

The administrative service centre at the Novotroiske EECP is scheduled to open in December.

Early November, the crossing of the contact line to the NGCA side was further restricted in the context of COVID-19. Crossing was only possible upon a special authorization of the JFO Headquarters for people with a residence registration in NGCA Luhansk Oblast and having an urgent issue requiring the crossing. From 10 November, the JFO headquarters issued an order to lift these restrictions and reopen Stanytsia Luhanska EECP. In November, 13,981 people crossed the contact line towards the GCA and 13,595 people in the other direction.

The number of people crossing the contact line increased in November compared to October by 35 percentage points due to the full-fledged work of Stanytsia Luhanska EECP from 10 November: 29,184 and 21,373 respectively, which is about 2,25% percent of the 1.2 million crossings recorded in November 2019.

The number of crossings increased in November compared to October by 35 percentage points due to the full-fledged work of Stanytsia Luhanska EECP from 10 November: 29,184 and 21,373 respectively, which is about 2,25% percent of the 1.2 million crossings recorded in November 2019.
