

# UKRAINE EMERGENCY

## UNHCR Operational Response Delivery Updates

11 April 2022

UNHCR delivered relief items such as blankets, sleeping mats, and kitchen sets to support displaced families in a reception centre in Ladyzhyn on 8 April. ©UNHCR

**7.1 million**  
Internally displaced people in Ukraine\*

**12.65 million**  
People directly affected by military hostilities\*\*

The war in Ukraine has triggered one of the fastest-growing displacement and humanitarian crises on record. The geographic scope of the hostilities is large and attacks indiscriminate, forcing people to flee their homes while millions are trapped in areas of intense hostilities.

**UNHCR operates as part of the inter-agency humanitarian response**, working in close coordination with local authorities and humanitarian partners. **UNHCR is leading three clusters** - Protection, Shelter and NFIs (non-food items), and CCCM (Camp Coordination and Camp Management).

**The overall goal of UNHCR's operational delivery** is to provide **immediate relief** to those fleeing military hostilities, while helping to **stabilize a situation** of fast-paced displacement.

To date, UNHCR has been:

- Providing **protection counselling and services**, including psychosocial

support and legal aid, at border crossing points, online and in locations where people have fled.

- Progressively rolling out a **large-scale multi-purpose cash assistance programme** now in *seven oblasts* to support displaced people to meet their immediate basic needs.
- Delivering **essential items, food and shelter support** to individuals and households, including in *hard-to reach areas with humanitarian convoys*.
- Supporting local authorities in IDP-receiving locations to **expand the capacity of reception and collective centres** and providing **essential items** to these.
- Prepositioning relief items to **enhance reception capacity** in central and western regions given the increased displacement from the east and in locations targeted by the intensified hostilities.
