STANDING COMMITTEE 29th Meeting

PROGRAMMES, BUDGETS AND FUNDING IN 2003 AND PROJECTIONS FOR 2004

I. INTRODUCTION

1. UNHCR's programme and funding projections for 2003 and 2004 were presented to the Executive Committee in October 2003, as part of the Annual Programme Budget (A/AC.96/979). The tables that accompany this document provide further updated information on programme expenditure and funding in 2003 (Annex I), a list of transfers from the 2003 Operational Reserve (Annex II), a summary of programmes and funding requirements for 2004 (Annex III), a list of 2003 contributions (Annex IV), and a list of major refugee-hosting countries and related data, in recognition of their important contribution to protecting and assisting refugees (Annex V). A draft decision is proposed (Annex VI) for adoption by the Standing Committee.

II. PROGRAMMES AND FUNDING IN 2003

2. Total requirements approved by the Executive Committee for 2003 amounted to \$836.3 million, comprising \$809.1 million for the Annual Programme Budget (including an Operational Reserve of \$73.6 million), a contribution of \$20.2 million from the United Nations Regular Budget and \$7 million for Junior Professional Officers (JPOs) (see Annex 1, Column 1). The contribution from the United Nations Regular Budget was adjusted to \$28.2 million at the end of the Biennium 2002-2003 and the Junior Professional Budget was adjusted to \$7.5 million in view of exchange rate fluctuations, thus bringing the total Annual Programme Budget in 2003 to \$844.8 million. With the addition of \$330.6 million for Supplementary Programmes (see Annex 1, column 2), the combined budget requirements for 2003 now amount to \$1,175.4 million.

3. Final expenditure figures for 2003 will only be known at the time of publication of the 2003 accounts, expected by early March. It is anticipated, however, that total estimated expenditure for 2003 will amount to \$985.8 million, including \$715.1 million under the Annual Programme Budget, \$28.2 million under the United Nations Regular Budget, \$7.4 million for the Junior Professional Officers and \$235.1 million for Supplementary Programme Budgets. Details of total expenditure for activities programmed in 2003 and income received for the year, including funds carried over from 2002, are provided in Annex 1 (columns 4, 6, 7 and 8). It should be noted that the final level of contributions received in 2003 may be slightly revised once the recording of private sector contributions is completed.

A. Annual Programme

4. The 2003 Annual Programme Budget, approved by the Executive Committee in October 2002 (A/AC.96/964), amounted to \$809.1 million. Based on the experience of preceding years, and as reported at the Standing Committee's 26th meeting in March 2003, the High Commissioner took measures early in 2003 to manage a projected funding shortfall. These measures, involving a reduction in the level of allocations by \$54 million and the freezing of some \$37 million in the Operational Reserve, avoided the need for more painful adjustments later in the year. Although the budgetary reductions were designed to minimize the negative impact on operations, they nevertheless had an appreciable effect on levels of protection and assistance for refugees and persons of concern, as described in the background note made available at the Standing Committee's 27th meeting in June 2003. It is currently anticipated that expenditures under the 2003 Annual Programme Budget will total \$715.1 million, i.e. \$94 million below the approved ceiling of \$809.1 million (Annex 1, columns 2 and 3).

5. The pre-emptive management of the projected shortfall allowed UNHCR to cover unanticipated costs including the increase in certain categories of United Nations staff salaries (\$21.5 million) and the effects of a weaker US dollar (\$21.4 million). However, measures taken to keep expenditure within expected resources limited the flexibility of the High Commissioner to address new situations and complicated the management of UNHCR's operations in the field.

6. Transfers from the 2003 Operational Reserve are shown in Annex 2. The use of the Operational Reserve was limited by a partial freeze, as explained in paragraph 4 above. Of the \$22 million allocated, 43 per cent was for operations in Africa, including major allocations for reintegration activities in favour of Burundian returnees, and for addressing the needs of Liberian refugees who fled into Guinea and Sierra Leone.

7. The total amount of contributions received in 2003 (\$651.7 million), as shown in Annex IV, compares favourably with those received in 2002 (\$627.3 million) and in 2001 (\$634.7 million). This is thanks to efforts by donors to maintain their contributions at the same level as before, regardless of a possible appreciation against the US dollar. An estimated \$80.4 million in secondary income increased the total estimated income for 2003 to \$732.1 million. In addition, the sum of \$37 million was brought forward as carry-over from 2002 (including \$10 million in the Operational Reserve), thus bringing the total estimate of contributions and income for 2003 to \$769.1 million.

8. Against estimated expenditure of \$715.1 million, and after making provision of \$10 million under the Operational Reserve, contributions and income for 2003 will leave an estimated carry-over into 2004 of \$44 million. Information on the detailed composition of this carry-over, including the part played by net gains on currency exchange rates, is being finalized and will be provided to the Standing Committee at its meeting.

B. Supplementary Programmes

9. Total requirements for Supplementary Programme Budgets in 2003 currently amount to \$330.6 million (see Annex I, column 2). Since the time of the Executive Committee's 54th session, requirements under Supplementary Programme Budgets have undergone a net reduction of \$4.4 million. This is the result of a reduction by \$11.3 million in the Afghanistan Operation, combined with the approval of \$6.3 million for emergency assistance to Sudanese refugees in Eastern Chad and the creation of a special budget for enhancing oversight and accountability in UNHCR, with a 2003 component of \$0.6 million.

10. Contributions to the 2003 Supplementary Programme Budgets totalled \$268 million, (Annex 1, column 6) including \$124.8 million for the Afghanistan Operation, and \$76.8 million for the Iraq Situation and the Iraq Repatriation and Reintegration Operation. Taking into account transfers and other adjustments, total funds made available for Supplementary Budget Programmes amounted to \$279.5 million (Annex 1, columns 4, 6 and 7), of which an estimated \$235.1 million have been spent under the various programmes. The carry-over to 2004 amounts to \$44.4 million, of which \$20.2 million will be available for the continuing Iraq Repatriation and Reintegration Operation. For those activities that have been budgeted under the 2004 Annual Programme Budget, the unobligated funds carried over from the 2003 Supplementary Programme Budgets have been transferred to the 2004 Annual Budget.

III. OVERALL PROGRAMME AND FUNDING PROJECTIONS FOR 2004

11. At its 54th session in October 2003, the Executive Committee approved activities under the 2004 Annual Programme Budget amounting to \$812 million (Annex III). In addition, the 2004 Annual Programme Budget makes provision for an Operational Reserve comprising \$60.9 million (representing 7.5 per cent of programmed activities) and an amount of \$50 million introduced on a trial basis for one year for the purposes explained in UNHCR's 2004 Annual Programme Budget document (A/AC.96/979, paragraphs 28-31). The Executive Committee also took note of the United Nations Regular Budget contribution of \$25 million and the sum of \$7 million for Junior Professional Officers, bringing total requirements in 2004 to \$954.9 million.

12. Since the approval of the Annual Programme Budget, several Supplementary Budget Programmes have been approved, totalling \$81 million (Annex III). The Supplementary Programme Budgets approved for 2004 include \$58.4 million for three situations in Africa, namely emergency assistance to Liberian refugees, emergency assistance to Sudanese refugees in Eastern Chad, and the repatriation and reintegration of Sudanese refugees. The Iraq Repatriation and Reintegration Operation continues into 2004 and an estimate is provided, pending the approval of comprehensive requirements for the year. 13. Overall, the combined programme needs for 2004 currently amount to a total of \$1,035.9 million. The combined carry-over from 2003 (Annual Budget, Supplementary Budget and Junior Professional Officers) is expected to reach \$105.6 million, as detailed in Annex I, column 9.

14. As in 2003, UNHCR has taken measures early in the current year to prepare for a possible shortfall in funding of the 2004 Annual Programme Budget. With respect to operational activities, an overall reduction of 5 per cent per region has been made, on the understanding that this proportion can vary by country. Non-staff administrative allocations have been reduced by 10 per cent in the Field and by 15 per cent at Headquarters. The total of all reductions amounts to \$36 million. Unlike last year, no freeze in the Operational Reserve has been deemed necessary at this stage.

15. With respect to the trial element (\$50 million) of the expanded Operational Reserve, referred to in paragraph 10 above, a total of \$1.7 million has been transferred as of 11 February 2004 to cover unmet needs for which additional contributions are available. A further, comparable amount is currently under consideration by the Operations Review Board.

DRAFT DECISION ON PROGRAMMES, BUDGETS AND FUNDING IN 2004

The Standing Committee,

Recalling the Executive Committee's decision at its fifty-fourth session on administrative, financial and programme matters (A/AC.96/979, para. 23) as well as its discussions under the programme and funding item at the twenty-sixth meeting of the Standing Committee;

Recalling also, with appreciation, the burden shouldered by developing countries hosting refugees;

1. *Notes* that UNHCR's overall needs under its Annual Programme for 2004, based on currently known requirements, amount to US\$ 954.9 million, as approved by the Executive Committee at its fifty-fourth session (which includes the amount of \$25 million from the United Nations Regular Budget and \$7 million for Junior Professional Officers);

2. *Notes* that Supplementary Programme budgets established since the approval of the Annual Programme, currently amount to \$81 million;

3. *Recognizes* that emergencies unfolding during 2004 are likely to result in the need for additional or expanded Supplementary Programmes and that additional resources, over and above those for the existing budgets, will be needed to meet such needs;

4. *Reaffirms* its continued support for efforts by the High Commissioner to seek innovative approaches to funding UNHCR's budget, including through the pilot implementation of the voluntary 30 per cent Base Level Approach, and appreciates being kept regularly informed of progress made;

5. *Notes with concern* that the High Commissioner has been compelled to reduce the activities under the Annual Programme for 2004 as a result of anticipated funding shortfalls and emphasizes the importance of adequate and flexible funding by the international community for UNHCR's programmes;

6. *Notes* with interest the progress achieved on the proposal put forward by the High Commissioner and approved by the Executive Committee on a trial basis for one year (A/AC.96/987, paragraph 24 (b)), and requests to be kept regularly informed of further developments during the trial period, in anticipation of the High Commissioner's recommendations on this subject to the fifty-fifth session of the Executive Committee.
