The purpose of this booklet is to facilitate networking and to help you identify organizations with similar or complementary areas of interest. This initiative stemmed from comments from Partners attending previous Annual Consultations about facilitating networking and knowing “who’s who”.

This booklet is a consolidation of the Partners that completed Part II of the form giving details on the history and purpose of the organization, its structure and activities. The information contained in this booklet has been extracted from your registration forms and was shared on a voluntary basis. Some formatting was necessary in view of space constraints; however, no details were edited.

If you would like to get in touch directly with a delegate of one of the organisations listed below, please refer to the participants list.

The Partnership Section would be happy to hear from you regarding the usefulness of the booklet, its format, the content and any other points you think important. Please send your comments to partnership@unhcr.org.

@ACTAllianceEU

**Profile/Profil**

We are a network of 14 faith-based development agencies from across Europe whose purpose is to influence EU policy makers and decision-making processes in the pursuit of justice, peace and the eradication of global poverty. We bring many years of experience to the work. For 25 years we were known as APRODEV and since January 2015 as ACT Alliance EU. Our policy and advocacy is always rooted in the reality of our global partners and stakeholders, demonstrating the consequences of decisions made in Brussels on the lives of people in different contexts and in different parts of the world. We believe that Southern voices need to be heard and listened to in the European Union. Our three areas of focus are climate change, food security and the European Union’s development policy and practice. These are crucial and connected issues. We also engage in advocacy regarding migration and refugees focusing on the external aspect of EU policies and the relations between the EU and the Middle East, and how it affects development and human rights. We are part of ACT Alliance, a global coalition of 140 relief and development agencies, joining our efforts to influence global policy making by combining our EU advocacy and policy expertise with ACT Alliance’s advocacy work in the global South and with the United Nations. We are a faith based network. As such we pursue rights-based development from a faith-based perspective, working to uphold the dignity of all human beings. We are united in a commitment to holistic, inclusive and sustainable development for all. This means addressing the social, cultural, spiritual, environmental, political and economic dimensions that are needed for all people to live with dignity, justice and peace.

We believe that by creating an open platform, we can facilitate individual and group reflection through the exchange of dialogue and listening to one another. As a result, these efforts can, and will, lead to collaborative feasible solutions of urgent matters migrant women and newcomers face in European cities. New Women Connectors aims to demonstrate how, through the power of voice, individuals can reflect on and recognize the capabilities we together as migrant women - have and share.
